Notes: 1. U.S. dollar amounts are translated from Japanese yen, for convenience only, at the rate of ¥115 to U.S. \$ 1.

Net income

- 2. Net income per share amounts are computed based on the weighted average number of shares outstanding during each period.
- 3. The amounts of total assets and net assets in 2006 in the Consolidated Financial Highlights differ from those in the Consolidated Balance Sheets on pages 10 and 11, because the figures in the Consolidated Financial Highlights represent amounts as they stood as of September 30, 2006, while those in the Consolidated Balance Sheets are as of March 31, 2007.

Note: The amounts of net assets for 2003-2005 have been reclassified in order to correspond to the presentation of those after September 30,2006.

(Six-month periods ended September 30)

## » To Our Shareholders

This report outlines our business activities and financial results for the interim period ended September 30, 2007.

During the interim period, the global economy remained strong overall. Although the US economy showed some signs of a business slowdown due to stagnation in the residential market, the Chinese economy sustained high growth along with other Asian nations and the EU. In addition, the Japanese economy enjoyed a moderate expansion led by private demand. This increase can be attributed to a continued increase in capital investment against the backdrop of favorable corporate sector's performance.

In the elevator and escalator industry, although demand for apartment buildings in the North American market declined, there was strong demand for office buildings and commercial facilities. In Asia, vigorous demand continued, particularly for apartment buildings in the Chinese market, and a recovery of demand and economic expansion were seen even in South Asia. In

the Japanese market, demand for condominiums was firm, and we saw signs of recovery in demand for commercial complexes and the like. Still, severe price competition continued in every market, which created unfavorable conditions in terms of profitability when combined with rising prices for raw materials.

Under such circumstances, Fujitec aggressively pursued sales in rapid response to market needs, resulting in a consolidated total value of orders received during the interim period of ¥55,241 million, up 8.3% from the same period of the previous year, and consolidated net sales of ¥49,065 million, up 4.6% from one year earlier. In terms of consolidated profit, with a profit decline in East Asia, operating income dropped 7.2% year on year to ¥1,751 million.

# » To Our Shareholders

In special items, Fujitec recorded ¥397 million in direct costs required for elevator steel member repairs, but as a result of reduced loss from a write-down of investment securities and other factors, our net income during the interim period totaled ¥1,157 million, an increase of 82.7% from one year earlier.

Under our mid-term management plan, "Regeneration for Quality," which went into effect this fiscal year, Fujitec endeavors to supply products and services that put top priority on safety and security. We will make every effort in all of our corporate activities to live up to the unflagging trust that customers have in Fujitec. We hope that our shareholders continue to provide us with their earnest support.

November 2007

of Malyina

Takakazu Uchiyama President and Chief Executive Officer

# » Outline of Major Activities

## North & South Americas

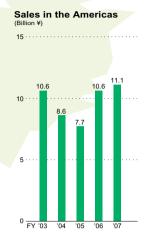

America's leading newspaper, the New York Times, completed the New York Times Tower in New York City. The tower will serve as its new head office. The 350 meter skyscraper stands 52 stories high and houses 32 elevators, including ultra high-speed models that travel up to 480 meters per minute.

Fujitec also received an order for a total of 58 elevators and escalators for the New Meadowlands Stadium, the new home for the New York Giants' football team.

In Canada, an order was received for elevators and escalators for Jamieson Place, a 37-story, state-ofthe-art office building being built in downtown Calgary.

## East Asia

In China's capital city of Beijing, construction is progressing on Line 4 of the Beijing subway, which runs north-south through the city. The line will reach a total length of 28.16 km and have 24 stations. Fujitec landed a major order for 104 escalators for this project.

In the international city of Shanghai, we were contracted to install 28 elegantly decorated elevators at The Peninsula Shanghai, a new 5-star hotel by a world-class luxury hotel chain observing both traditions and formalities.

In Hong Kong, the 72-story Union Square super high-rise complex building has been completed.

In this building, a total of 32 highspeed elevators and escalators are in operation. In addition, Fujitec has won an order for 26 elevators and escalators, including ultra high-speed elevators for a 41-story high-rise office building located in the Kowloon Bay district.

Rendering of Line 4 of the Beijing Subway

# » Outline of Major Activities

## South Asia

In Singapore, we have received an order for 61 elevators, escalators and autowalks (moving walkways) for City Square Mall, a major commercial complex, as well as an order for 28 elevators and escalators for the large-scale residential project the Clematis.

In India, the world-renowned Four Seasons Hotel Mumbai is nearing completion, which will

have eight of our luxury elevators.

In Malaysia, Fujitec will supply 79 elevators, escalators, and autowalks for Jaya Jusco Bukit Tinggi, one of Southeast Asia's largest commercial complexes.

Java Jusco Bukit Tinggi

# Europe

Twenty-eight Fujitec elevators have been installed at a newly completed train station in England. The station is located on the rail line running through the Channel Tunnel between England and France.

In the Middle East, Burj Dubai Square in the United Arab Emirates has been completed and 36 Fujitec

Burj Dubai Square

elevators are in service. Furthermore, we received an order for 32 elevators and escalators for the monorail stations to be built on Dubai's artificial island, the Palm Jumeirah.

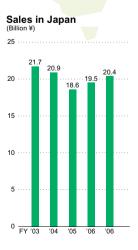

# apan

Hamachidori-no-yu Kaishu

Fujitec received an order for 67 elevators and escalators for Aeon Koshigaya, one of Japan's largest commercial complexes to be built in the City of Koshigaya in Saitama Prefecture, and an order for 45 elevators and escalators for Youme Town Hiroshima, the largest shopping center in the City of Hiroshima.

A total of 12 Fujitec elevators and escalators are in service at the Kotocross Hankyu Kawaramachi commercial complex in Kyoto, along with seven Fujitec elevators operating in the luxury Japanese-style inn, Hamachidori-no-yu Kaishu in Wakayama Prefecture.

# » Report

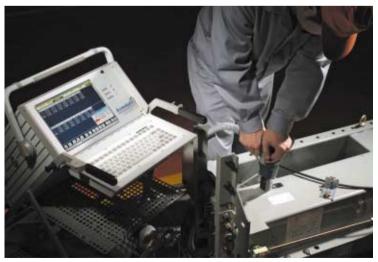

# Strengthening quality and information control systems to prevent future acceptance of substandard steel products!

In response to the discovery that 560 Fujitec elevators had insufficient strength due to the use of inappropriate steel products, a company-wide initiative commenced on July 14, 2007 to conduct reinforcement work for the identified elevators. Such strength assurance measures are now nearly complete.

Fujitec takes this situation very seriously and used this opportunity to reaffirm our social responsibility as a manufacturer. Executives and employees alike have joined together to thoroughly implement quality control and further build and strengthen our internal preventive control systems.

For example, when purchasing steel plates in the future, we will choose suppliers who can offer superior traceability (manufacturing records) and we will require the submission of a mill sheet (inspection certificate) for each delivery of materials

and a standard steel sheet cutting certificate. In addition, for an internal inspection system, we have introduced high-precision testing equipment, and will periodically carry out steel plate componential analysis, hardness tests, and tensile strength tests. We also utilize the Industrial Research Center of Shiga Prefecture as an external testing organization. Additionally, we will establish a system that enables us to record and review the details and results of negotiations with business partners, further reinforce our operational checking system; review our order placement process, build an information supply system for emergency situations, and implement an education and training system for all employees. We will continue to supply elevators and escalators while pursuing top-notch performance and quality under our basic principle as a manufacturer with top priority placed on "safety and security."

Steel plate componential analysis using high-precision testing equipment

## » New Products

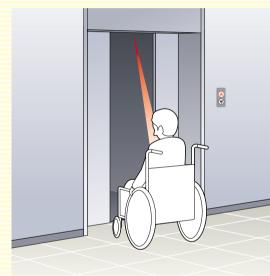

# Further improving the safety functions of elevators and escalators!

Fujitec has further improved the safety features of our elevators and escalators to equally ensure both the safety and ease of operation for all passengers. For example, to protect people when elevator doors open and close, multiple types of sensors have been incorporated into the door opening: a sensor that emits infrared beams towards the door pockets located at both sides of the cab door and prevents doors from retracting into the door pockets if beams are blocked; a photoelectric type multiple beam sensor that prevents objects from getting caught when the doors close; and 3-D sensors mounted facing the elevator lobby, which further improve the level of safety when passengers enter the elevator. As an earthquake measure, Fujitec has developed a system that receives emergency earthquake flash reports from the Japan Meteorological Agency and stops the elevator automatically at the nearest floor before the arrival of the destructive main tremors.

This system will minimize the risk that any passengers will become trapped in an elevator.

In addition, our escalators have dress guards that can be mounted on existing escalators between the step and skirt guard to prevent objects such as shoes or loose clothing from being pinched in a gap. We have also newly developed a

step descent prevention device that mechanically holds escalator steps in place so that an escalator can be used for evacuation in the event of emergency. In these and other ways, Fujitec is taking measures to ensure safety in times of emergency.

### **Consolidated Financial Review**

#### Operating Results

During the six-month period ended September 30, 2007, consolidated orders received rose 8.3% year on year to ¥55,241 million (US\$480 million). This was due to an 11.0% increase in overseas orders, reflecting a sharp rise in orders in South Asia, and a 5.1% increase in domestic orders thanks to firm demand for high-rise condominium buildings, large multipurpose commercial facilities and other structures.

Consolidated net sales increased 4.6% year on year to \(\pmu44,065\) million (US\(\pmu427\) million). Domestic sales were up 5.6%, while overseas sales rose 3.9%, mainly reflecting steady growth in South Asia and North America and a boost from the depreciation of Japanese yen.

Orders in hand at September 30, 2007 were ¥105,215 million (US\$915 million), increasing 8.9% from March 31, 2007.

Operating income decreased 7.2% year on year to ¥1,751 million (US\$15 million), mainly due to a drop in earnings in East Asia, despite earnings growth in Japan and South Asia and smaller losses in North America and Europe.

Income before income taxes and minority interests rose 27.1% year on year to ¥1,823 million (US\$16 million), mainly as a result of special gains due to decreases in write-downs of investment securities, which was partly offset by ¥397 million (US\$3 million) in direct costs for elevator reinforcement work.

Net income increased 82.7% year on year to ¥1,157 million (US\$10 million) as income taxes declined due to a reduction in deferred tax adjustments and minority interests decreased in line with lower earnings in East Asia.

#### **Financial Position**

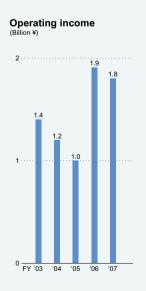

Total assets as of September 30, 2007 were ¥118,093 million (US\$1,023 million), a decrease of ¥4,796 million from March 31, 2007.

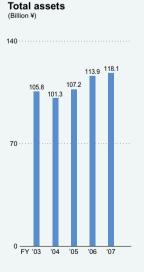

Current assets decreased ¥4,316 million from the previous fiscal year-end. This was mainly due to a decrease in trade notes and accounts receivable in Japan and a reduction in other current assets following collection of remaining proceeds from the sale of land of the former Osaka Plant. These decreases were partly offset by an increase in inventories, owing to an increase in the orders in hand.

Investment securities declined ¥1,065 million from March 31, 2007, mainly due to a decrease in net unrealized gains. Total liabilities as of September 30, 2007 were ¥45,398 million (US\$395 million), a decrease of ¥5,705 million from March 31, 2007. Current liabilities were down ¥5,559 million from the previous fiscal year-end, mainly because of a decrease in short-term debt in Japan and North America. Long-term liabilities decreased ¥146 million from March 31, 2007 due to a reduction in deferred income taxes and other factors.

Net assets were ¥72,695 million (US\$632 million), an increase of ¥909 million from March 31, 2007. This mainly reflected a smaller deduction of foreign exchange translation adjustments in net assets in line with the Japanese yen's depreciation. The equity ratio, excluding minority interests, was 57.3%, up 3.0 points from March 31, 2007.

#### Cash Flows

Net cash provided by operating activities was ¥877 million (US\$8 million). This mainly reflected income before income taxes and minority interests of ¥1,823 million (US\$16 million) and depreciation and amortization of ¥1,135 million (US\$10 million). These components were partly offset by an increase in inventories in line with projected sales growth in the second half and payment of income taxes.

Net cash used in investing activities was ¥1,012 million (US\$9 million). The main uses of cash were ¥2,287 million (US\$20 million) for a net increase in time deposits (with a deposit term of over three months) and ¥1,914 million (US\$17 million) for acquisitions of property, plant and equipment. These cash outflows were partly offset by proceeds of ¥3,333 million (US\$29 million) from the sale of property, plant and equipment.

Net cash used in financing activities was ¥6,625 million (US\$58 million). Cash was used mainly for the repayment of shortterm debt, payment of interest, and cash dividends paid.

As a result of the foregoing, cash and cash equivalents totaled ¥12,502 million (US\$109 million), ¥6,334 million (US\$55 million) less than at the previous fiscal year-end.

### **Notes to Consolidated Financial Statements**

Fujitec Co., Ltd. and Consolidated Subsidiaries Six-month periods ended September 30, 2007 and 2006

#### 1. Basis of Presenting Consolidated Financial Statements

The accompanying consolidated financial statements of Fujitec Co., Ltd. (the "Company") and its consolidated subsidiaries have been prepared from the consolidated financial statements filed with the Director of the Kanto Local Finance Bureau, as required by the Financial Instrument and Exchange Law of Japan, in conformity with accounting principles and practices generally accepted in Japan.

For the purpose of this Semiannual Report, certain reclassifications have been made to the consolidated financial statements issued domestically, in order to present these statements in a form which is more familiar to readers of these statements outside Japan. However, such reclassifications have no effect on net income or retained earnings.

The United States dollar amounts included in the consolidated financial statements and notes thereto represent the arithmetical results of translating Japanese yen into United States dollars on a basis of ¥115=U.S. \$1, the approximate effective rate of exchange at September 30, 2007. The inclusion of such United States dollar amounts is solely for convenience and is not intended to imply that Japanese yen, and assets and liabilities originating in Japanese yen, have been or could be readily converted, realized or settled in United States dollars at ¥115=U.S. \$1 or at any other rate.

#### 2. Summary of Significant Accounting Policies

#### (A) Principles of Consolidation

The consolidated financial statements include the accounts of the Company and the following seventeen significant subsidiaries (together the "Companies").

Fujitec America, Inc. (U.S.A.)

Fujitec Canada, Inc. (Canada)

Fujitec UK Ltd. (United Kingdom)

Fujitec Deutschland GmbH (Germany)

Fujitec Singapore Corpn. Ltd. (Singapore)

Fujitec Maintenance (Singapore) Pte. Ltd. (Singapore)

P.T. Fujitec Indonesia (Indonesia)

Fujitec (Malaysia) Sdn. Bhd. (Malaysia)

Fujitec India Private Ltd. (former FSP Elevator Private Ltd.) (India)

Fujitec Vietnam Co., Ltd. (Vietnam)

Fujitec, Inc. (Philippines)

Fujitec (HK) Co., Ltd. (Hong Kong)

Rich Mark Engineering Limited (Hong Kong)

Fujitec Taiwan Co., Ltd. (Taiwan)

Huasheng Fujitec Elevator Co., Ltd. (China)

Shanghai Huasheng Fujitec Escalator Co., Ltd. (China)

Fujitec Korea Co., Ltd. (Korea)

The accounts of Fujitec, Inc. (Philippines) were newly included in consolidation, effective January 1, 2007, due to an acquisition of the major ownership by Fujitec Singapore Corpn. Ltd., consolidated subsidiary.

The interim closing date of the above consolidated subsidiaries is June 30.

In preparing the consolidated financial statements, using consolidated subsidiaries' accounts, based on their own interim closing dates, the necessary adjustments were made for the significant intercompany transactions incurred from the consolidated subsidiaries' interim closing date to the consolidated balance sheet date.

All significant intercompany transactions and accounts have been eliminated. Investments in unconsolidated subsidiaries (more than 50% owned) and affiliates (20% to 50% owned) are carried at cost due to their immateriality as a whole. If a decline in value below the cost of an individual security is judged to be material, and other than temporary, the carrying value of the individual security is written down.

#### (B) Accounting Principles

The semiannual consolidated financial statements are prepared in accordance with the same accounting principles as those listed in the Notes to Consolidated Financial Statements for the fiscal year ended March 31, 2007, except for the following:

#### (1) Change in accounting policy

According to an amendment of the Japanese Corporation Tax Law, the Company depreciates the acquisition cost of property, plant and equipment acquired on or after April 1, 2007 to the nominal value of 1 yen at the end of the asset's useful life. As for the property, plant and equipment acquired on or before March 31, 2007, the Company depreciates the assets with the depreciation limit to the nominal value of 1 yen in equal installments from the fiscal year that starts on and after April 1, 2007. The effects of those changes are immaterial.

#### (2) Supplemental information

Provisions for warranty of completed contracts - Owing to an increase in the estimated cost of free-of-charge warranty for the period under review, the Company has changed its method of accounting for provisions for warranty of completed contracts from recognition of previously one-thousandth of the contract revenue to recognition of the estimated cost of free-of-charge warranty expected in the future relative to the contract revenue. As a result of this change, compared with the previous method, cost of sales increased by ¥122 million (U.S. \$1,061 thousand) and operating income decreased by the same amount, and income before income taxes and minority interests decreased by ¥315 million (U.S. \$2,739 thousand).

Severance payments to directors and corporate auditors - The Company has in the past accrued the unfunded retirement liability for a lump-sum benefit to directors and corporate auditors of the Company based on the established guidlines. However, the annual meeting of shareholders held on June 27, 2007 resolved to abolish the retirement benefit plan for directors and corporate auditors as of the meeting date, and further resolved to make severance payments corresponding to their terms of office up to June 27, 2007 to all directors and corporate auditors currently in office at the time of their retirement.

Consequently, accrued severance payments to directors and corporate auditors amounting to ¥433 million (U.S. \$3,765 thousand), were reclasified as other current liabilities of ¥27 million (U.S. \$235 thousand) and long-term debt of ¥406 million (U.S. \$3,530 thousand) in the accompanying balance sheet as of September 30, 2007.

#### 3. Contingent Liabilities

At September 30, 2007, contingent liabilities were as follows:

		U.S. Dollars
	Millions of Yen	(Note 1)
Guarantees of bank loans	¥ 15	\$ 130

#### 4. Subsequent Events

On November 6, 2007, the Board of Directors of the Company declared interim cash dividends of ¥468 million (U.S. \$4,070 thousand), or ¥5 (U.S. \$0.04) per share, to be paid on December 3, 2007, to shareholders.

#### 5. Segment Information

Information by geographical area for the six-month periods ended September 30, 2007 and 2006 is summarized as follows:

(A) Geographical segment information			Thousands of U.S. Dollars
(1) Operating income(loss):	Million	s of Yen	(Note 1)
Japan	2007	2006	2007
Net sales: Customers	¥ 20,412	¥ 19,469	\$ 177,496

Operating income	1,765	1,969	15,348
Elimination	(14)	(82)	(122)
Consolidated operating income	¥ 1,751	¥ 1,887	\$ 15,226

Note: Each segment outside Japan represents the following nations and regions:

- (1) North America .... U.S.A. and Canada
- (2) Europe ......United Kingdom and Germany
- (3) South Asia......Singapore, Indonesia and Malaysia
- (4) East Asia ...... China, Hong Kong, Taiwan and Korea

#### (B) Overseas sales

3) Overseas sales	Million	s of Yen	Thousands of U.S. Dollars (Note 1)
	2007	2006	2007
The Americas	¥ 11,388	¥ 10,719	\$ 99,026
South Asia	5,140	4,277	44,696
East Asia	10,644	11,078	92,557
Other areas	1,546	1,558	13,443
Total	¥ 28,718	¥ 27,632	\$249,722
Percentage of overseas sales to net sales	58.5%	58.9%	

### Notes:

- 1. Overseas sales are the sum of export sales of the Company and net sales of consolidated subsidiaries to each segment after elimination of all intercompany transactions.
- 2. Each segment outside Japan represents the following nations and regions:
  - (1) The Americas ...... U.S.A., Canada, Argentina and Venezuela
  - (2) South Asia ......Singapore, Philippines and Malaysia
  - (3) East Asia ......China , Hong Kong, Taiwan and Korea
  - (4) Other areas ...... Europe and Middle East
