Relocation of Tokyo Regional Office and Establishment of Tokyo Head Office

Please be informed that we, Fujitec Co., Ltd. (Head office: Hikone city, Shiga pref.) will relocate our current Tokyo Regional Office from *Gate City Osaki* in Tokyo's Shinagawa Ward to the *Mita M-SQUARE* in Tokyo's Minato Ward, and will upgrade the office to our Tokyo Head Office on February 1, 2008. This will give Fujitec an organization with two head offices, including the current head office at *Big Wing* in the City of Hikone in Shiga Prefecture.

1. Tokyo Head Office (to begin operations on February 4, 2008)

Mita M-SQUARE, 3-9-6, Mita, Minato-ku, 108-8307 Tokyo

2. Reasons for Establishment

(1) The main objective of the establishment of Tokyo Head Office is to strengthen sales activities in the Tokyo metropolitan area and improve Fujitec's ability to send information.

(2) By setting up a head office in Tokyo, we plan to upgrade our sales activities in the Tokyo metropolitan area, Japan's largest market. In addition, we will transfer a department associated with management strategies to Tokyo. This will make it possible for us to raise the public recognition of Fujitec brands through the implementation of more aggressive and diversified information gathering and transmission activities, including more efficient e Investor Relations program.

(3) By establishing an organization with two head offices, one at *Big Wing* and the other in Tokyo, we aim to further strengthen corporate activities and increase our market share. Through close collaboration between the two head offices, we plan to quickly supply products and services that match market needs, using an integrated framework that includes sales, development, production, installation and maintenance operations.

Best Regards,
