

Received Order for 138 Escalators for Subway in Shenyang China

Strengthening the Fujitec distributor network and expanding sales for public infrastructure

Fujitec Co., Ltd. received an order through its Chinese Group company Huasheng Fujitec Elevator Co., Ltd. for 138 escalators for Metro Line 3 located in Shenyang, a central city in Northeast China. The project is scheduled for completion in December 2025. Fujitec will have delivered a total of 339 escalators to the city's subway system upon completion of this order.

The new Med-Term Management Plan Move On 5 stipulates that one of the key measures of the Company in the Chinese market is to build a strong distributor network and strengthen collaboration. The Company also strives to expand sales in the public infrastructure market segment. Fujitec received the order in recognition of the products it provided to the city's subway system, subsequent maintenance, and close collaborations with distributors in China and the Northeast region. Fujitec will continue to promote multifaceted measures in the Chinese market, with its high growth potential, to achieve top-line growth.
