

## **Occupational Health and Safety Regulations**

The Fujitec Group prioritizes safety and reliability in all of its corporate activities. This approach is natural for a corporate group that continues to provide safe and reliable products and services to the world, and it forms the basis of our business.

In the aim of making Fujitec a company that maintains an accident- and disaster-free record and fulfills the highest standards of safety, all our employees and all of those involved in our work will comply with national health and safety laws and regulations, rigorously adhere to prescribed rules, and follow basic principles of conduct.

As a company responsible for providing social infrastructure, we will pursue safety and reliability to meet the expectations of all our stakeholders.
