

Building name

VIA 57 West

Location

New York, U.S.A.

Completion

2016

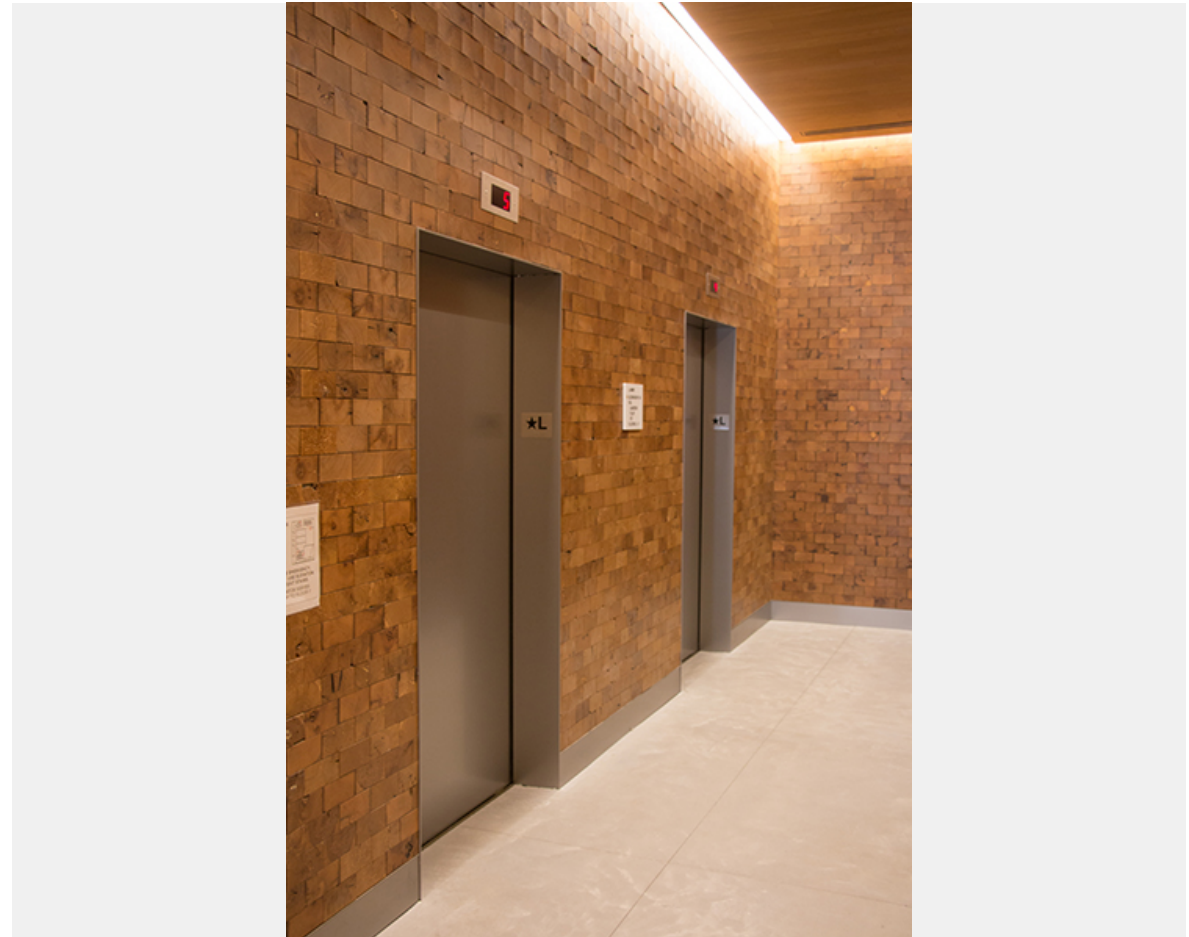

Total units

Elevator 17

Twelve Fujitec elevators are installed in VIA 57 West, an approximately 140m high residential building on the waterfront of the Hudson River in Manhattan.

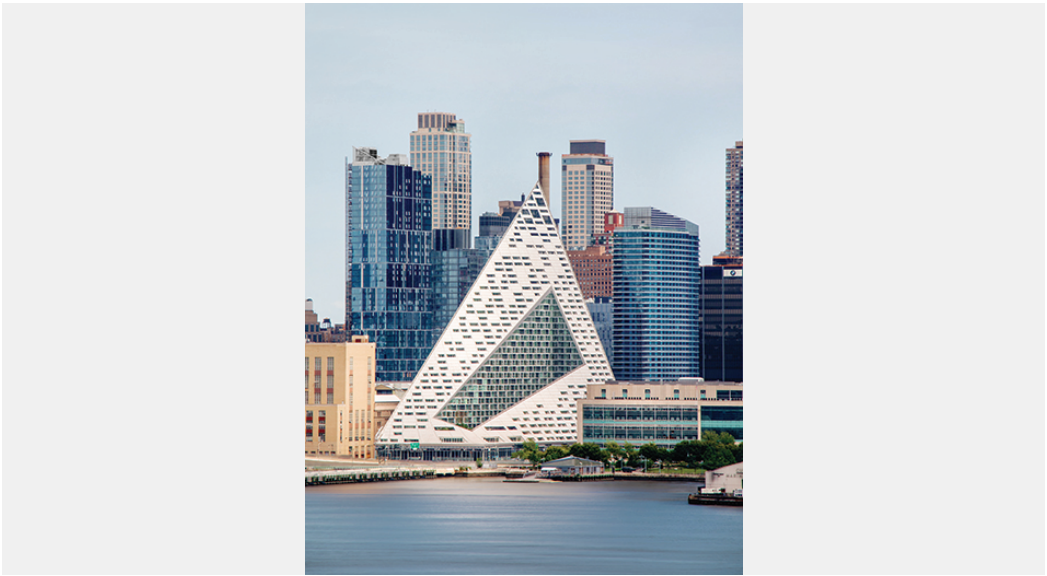

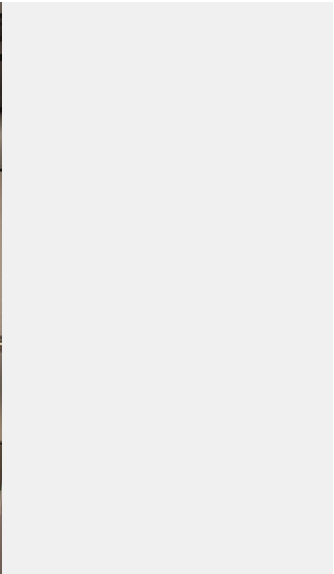

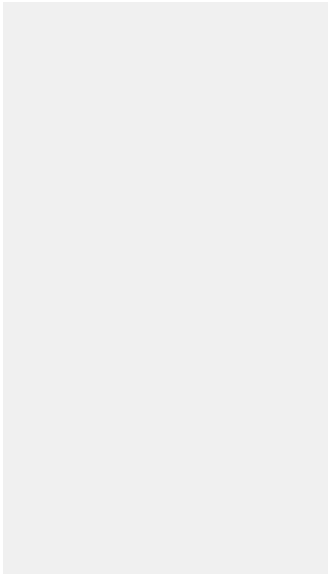

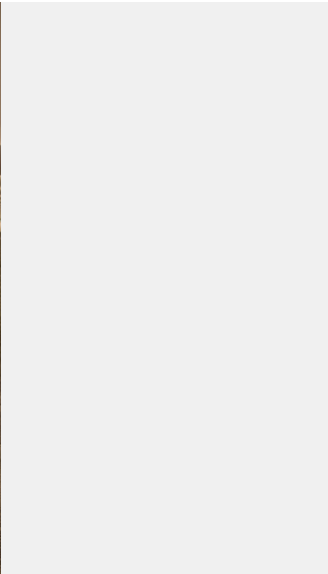

The building has a distinctive giant pyramid appearance. The hollowed-out portion of the building's face allows space for a courtyard and allows sunlight to spread into the interior.

The elevators installed match the refined stainless-steel design of the building.

Owner	Durst Pyramid LLC
Architect	SLCE Architects, LLP
Contractor	Hunter Roberts Construction Group
