

Building name

Four Seasons Hotel Denver

Location

Denver, U.S.A.

Completion

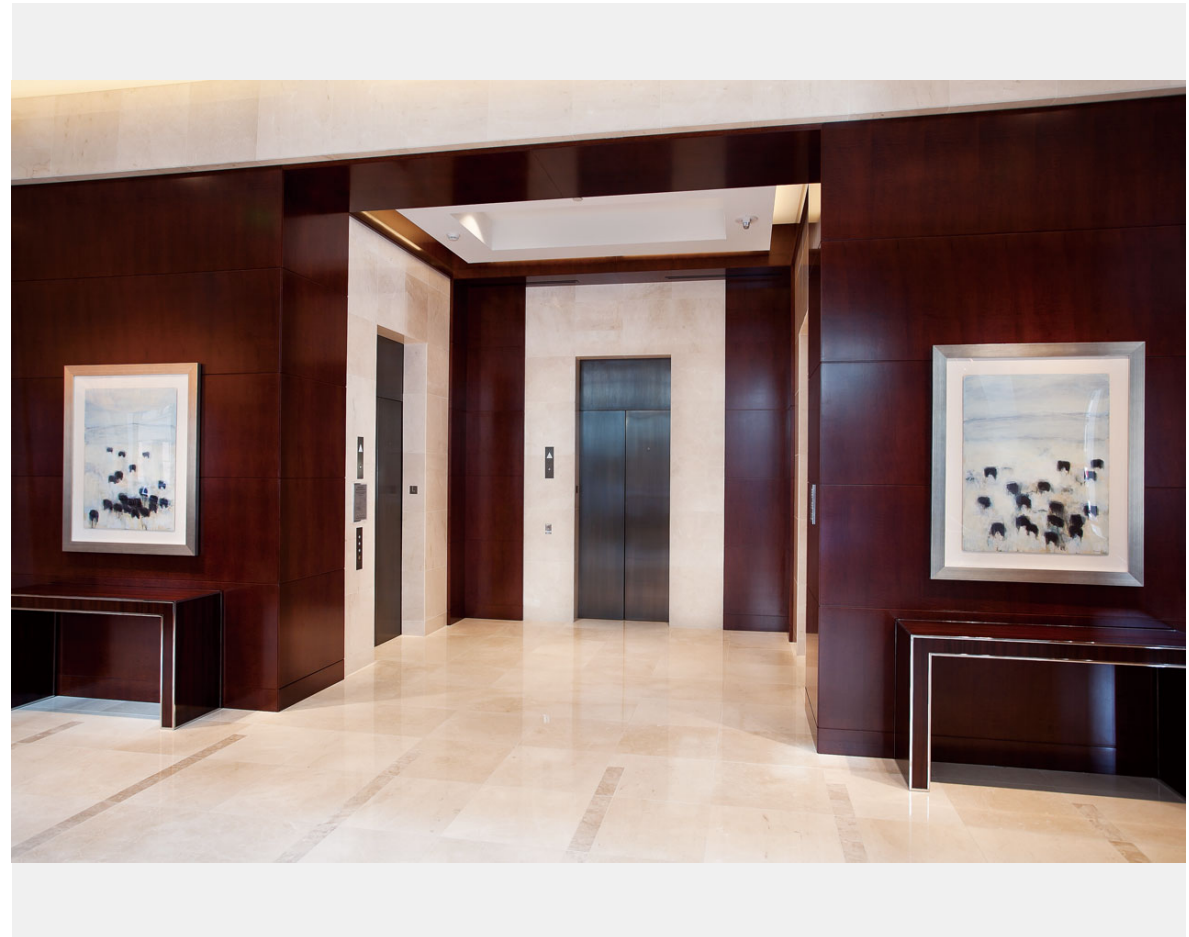

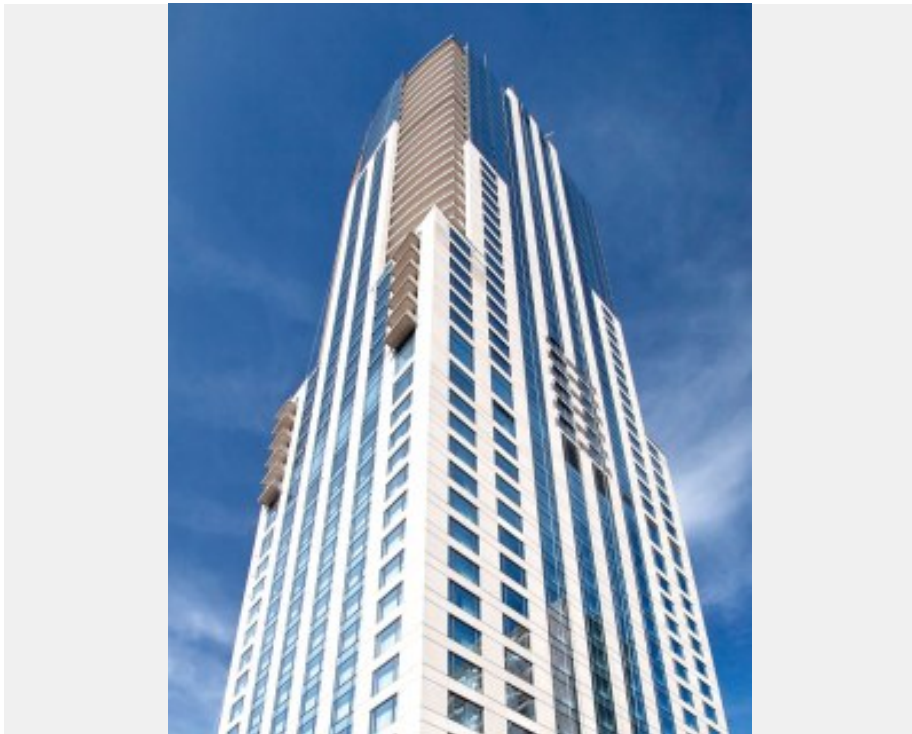

2011

Total units

Elevator 9

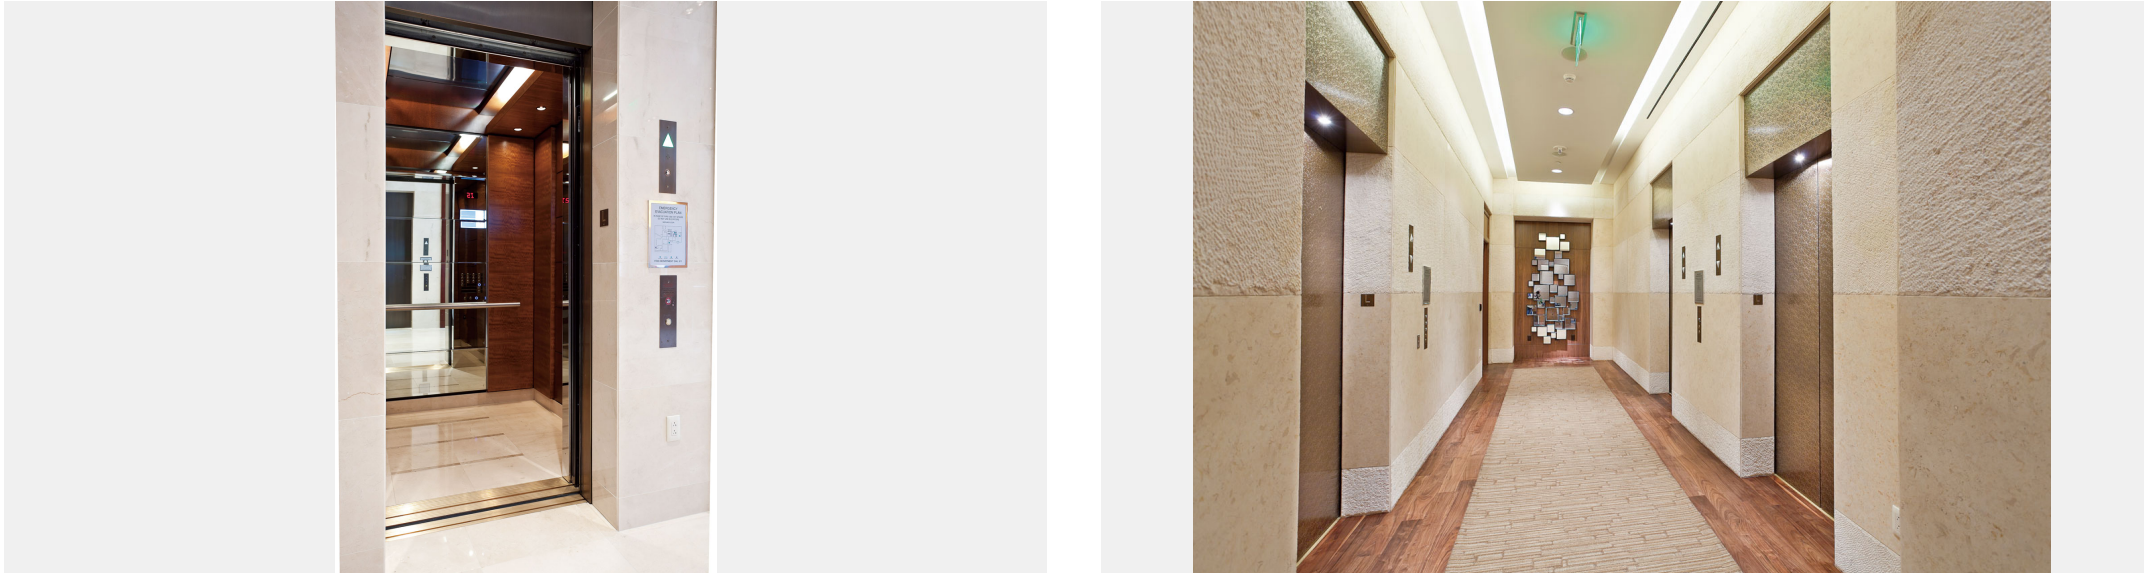

Denver is the capital of the State of Colorado and a central city of commerce, industry, culture and tourism located at the foot of the Colorado Mountains in the western US. The Four Seasons Hotel is a world-famous upscale hotel chain built in downtown Denver. The 45-story hotel is served by nine Fujitec elevators, including 300 mpm high-speed models.

The elevator cabs are finished with beautiful wood grain designs, which is blended in harmony with the soft glow of the indirect lights and downlights, creating a classy and relaxing atmosphere that suitably matches the high-class hotel.
