

Building name

The Kitano Hotel Tokyo

Location

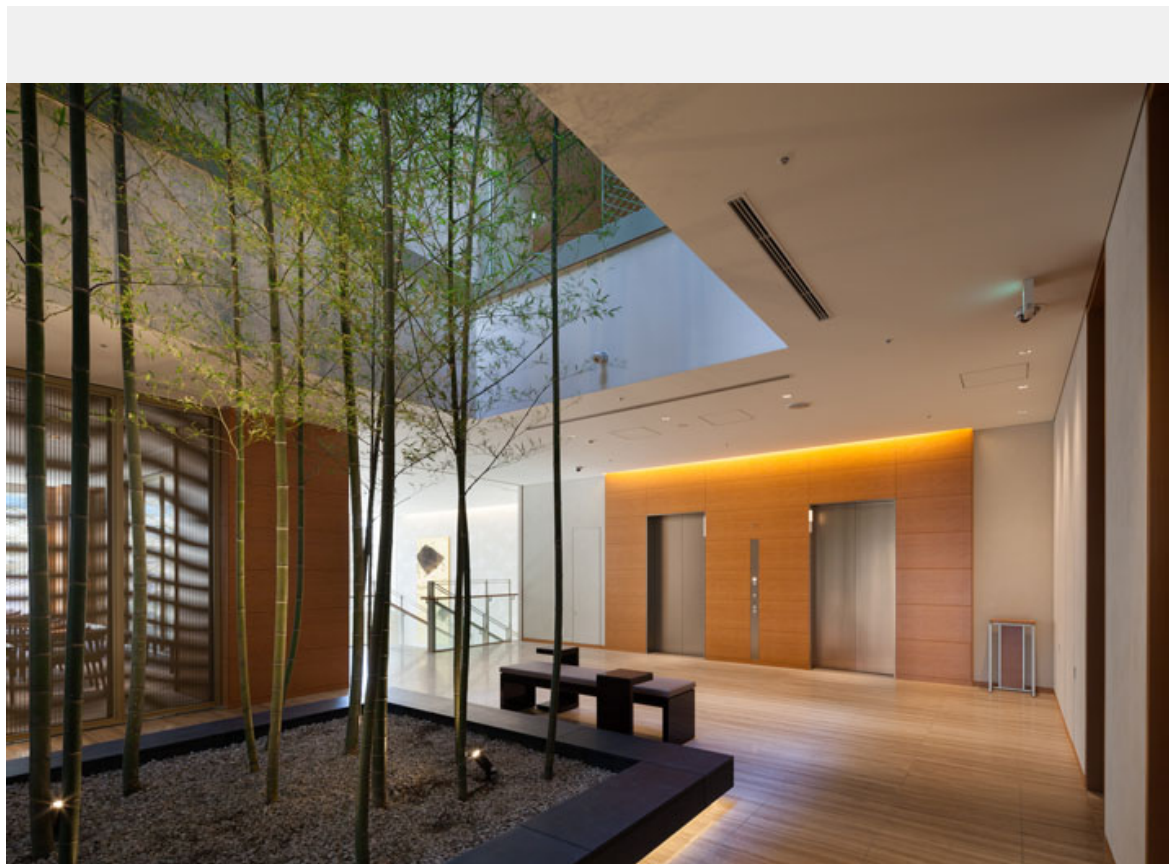

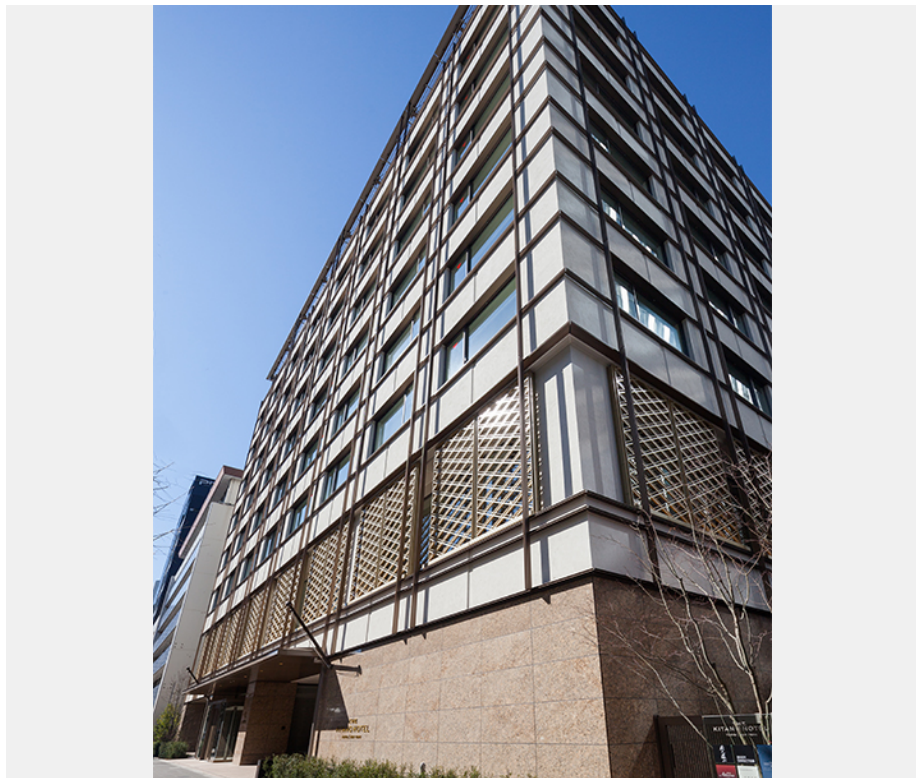

Chiyoda, Tokyo

Completion

2019

The Kitano Hotel Tokyo is a luxury boutique hotel in Hirakawacho, Chiyoda-ku. Together with The Kitano Hotel New York in the United States, this hotel supports international exchange and business, and is loved by guests from Japan and around the world.

Three Fujitec elevators operate here. The elevators for guests use the same lighting colors used in the facilities, and create a soft Japanese space while taking advantage of the beauty of the straight lines of stainless steel. The control panel for wheelchair users on the side wall of the car features an LCD indicator to improve visibility.
