Elevator 13

Shibuya Scramble Square is a large complex building located directly above and with direct access to Shibuya Station.

This prominent building is widely known as the tallest building in the Shibuya area, standing at two hundred twenty-nine point seven (229.7) meters with forty-seven (47) floors above ground and seven (7) basements. It features various functional spaces such as an observation facility, business offices, a co-creation facility, a commercial facility, etc.

"Urban Core," the three (3) - dimensional walkways on which people flow to the basements, the ground floor, and the pedestrian deck, has been created in Shibuya Scramble Square and contributes to raising the people's walking convenience and enhancing the efficiency of the people's round trips around the surrounding areas of Shibuya Station.

In this multi-facility building, Fujitec has installed thirteen (13) units of elevators including observation elevators. These elevators support the movement of the people who visit the attractive facilities of Shibuya Scramble Square, which is remarkably recognized as the landmark of Shibuya.
