

Building name

Tokyo World Gate

Location

Toranomon, Tokyo

Completion

2020

Total units

Elevator	50
Escalator	4

Tokyo World Gate is a new business district developed around Kamiyacho Trust Tower which is a complex office building with thirty-eight (38) aboveground and three (3) underground floors in Toranomon area regarded as a symbolic area representing the international mega city, Tokyo.

In this newly developed district, there are 54 units of Fujitec elevators and escalators.

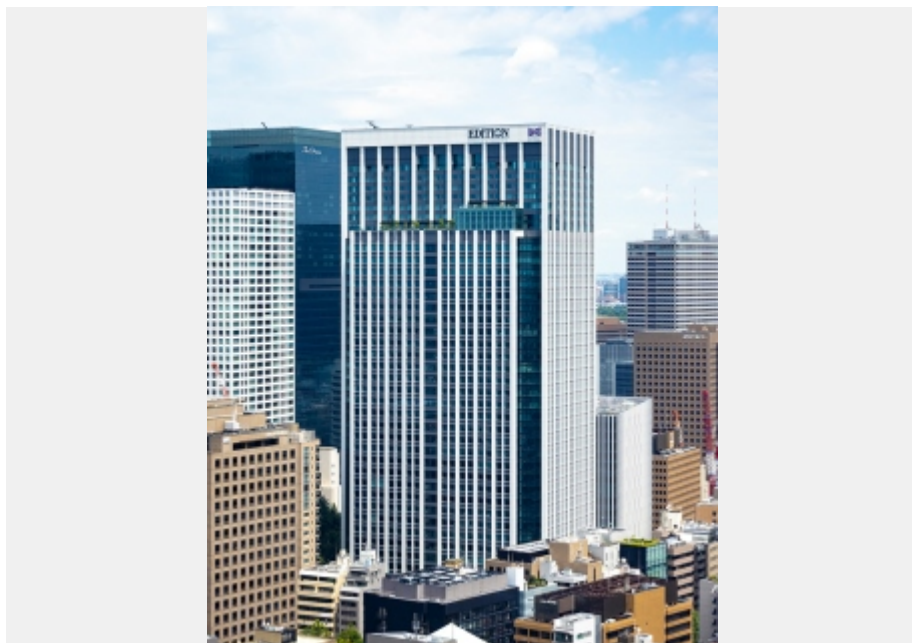

Fujitec elevators in the office area have Destination Floor Registration System called EZSHUTTLE, which contributes to the enhancement and increase of elevator operating efficiency.

The exterior of these elevators is designed and finished with the basic concept of "Application of pink-bronze-like stainless steel for creation of modern and high-quality appearance."

Fujitec shuttle elevators installed in the hotel of The Tokyo Edition, Toranomon, which occupies the top-level floors of a building, provide excellent service to hotel guests and visitors at the speed of 300 meter per minute.

The interior of these elevators is created with application of non-flammable wood and with finish of sulfide fumigation by paint.

The comfort and pure relaxation brought in the elevator interior by soft illumination with concealed lighting can make the guests and visitors forget the hustle and bustle of the city.
