

Located in Sendai, nicknamed the "City of Trees," the central city of the Tohoku region, the Sendai Trust Tower is the tallest super high-rise complex in the region.

The tower is served by 37 elevators, including super high-speed models that travel at 360 meters per minute, and four escalators.

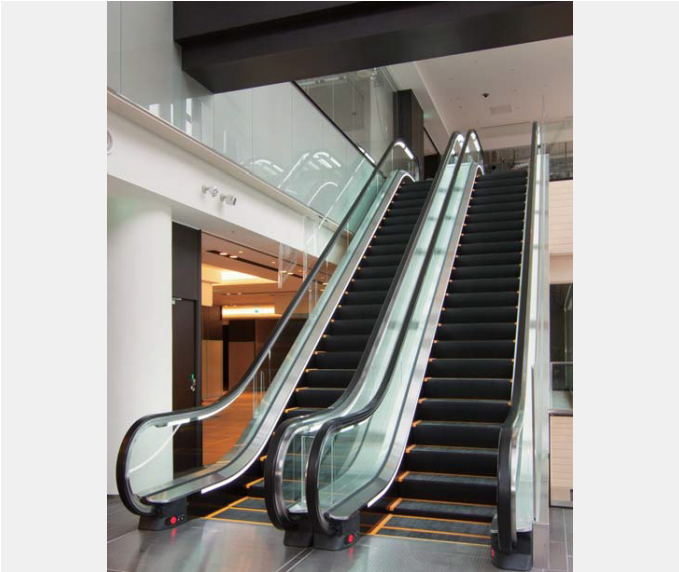

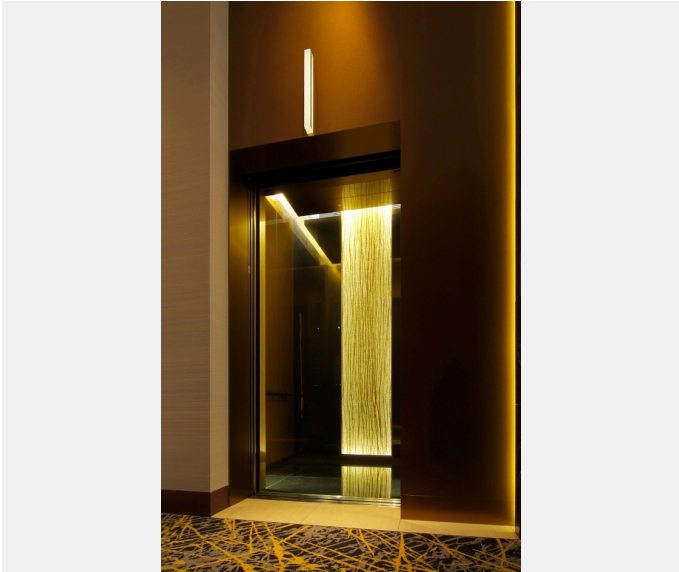

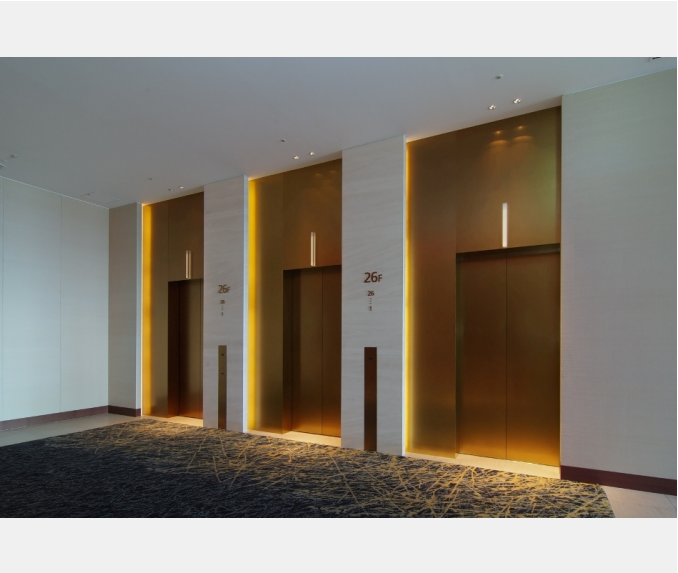

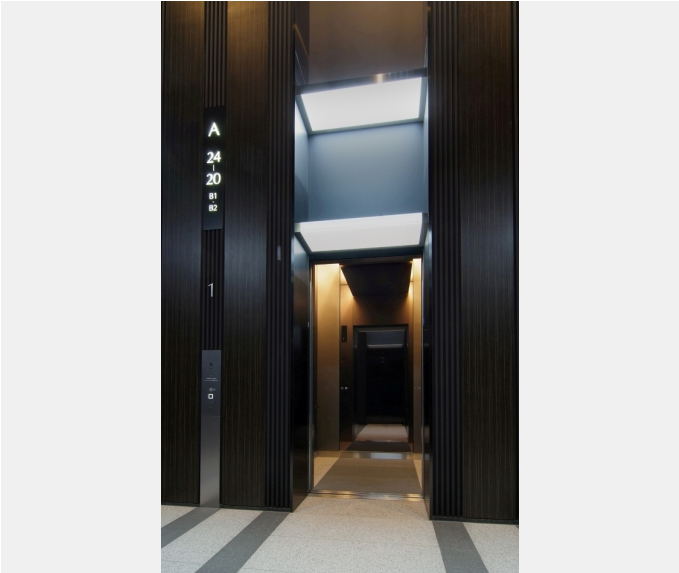

In the elevator hall on the first floor, a large LED lantern is incorporated in each of the five-meter tall transom panels that extends to the ceiling. It helps to integrate a dignified atmosphere and sophisticated design.

The tower, which is occupied by offices, commercial facilities, and a upper upscale hotel brand, The Westin Sendai, will surely become a new landmark in Sendai.
