

Building name

FUJIFILM Creative Village

Location

Tokyo Metropolis

Completion

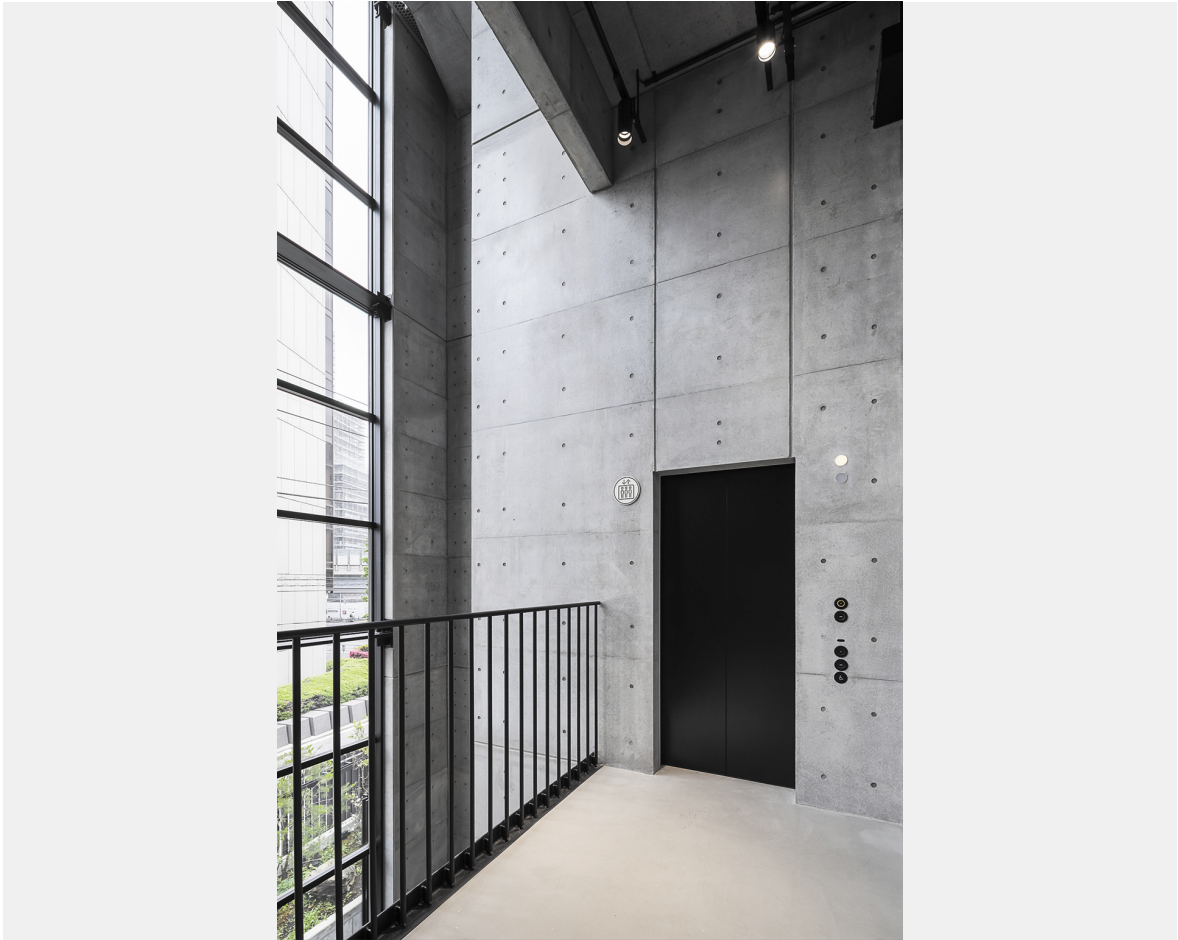

2023

Total units

Elevator 2

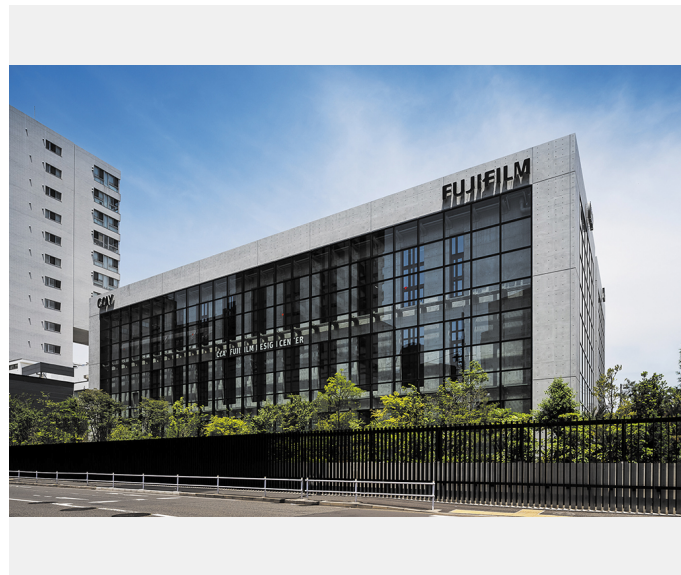

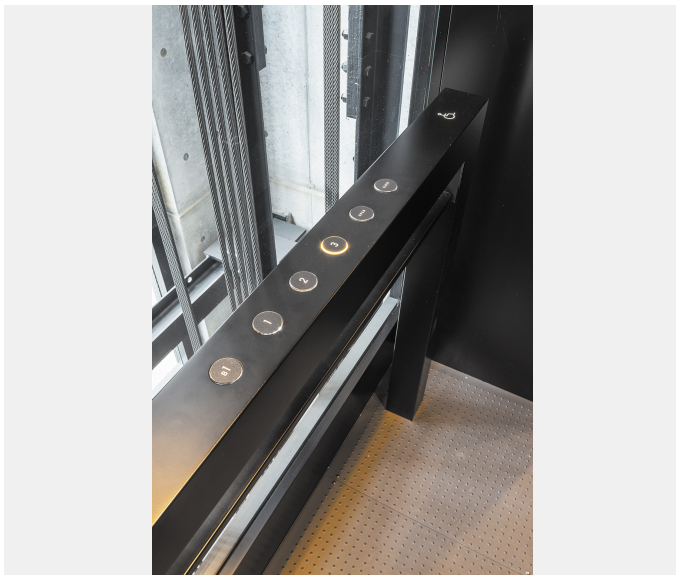

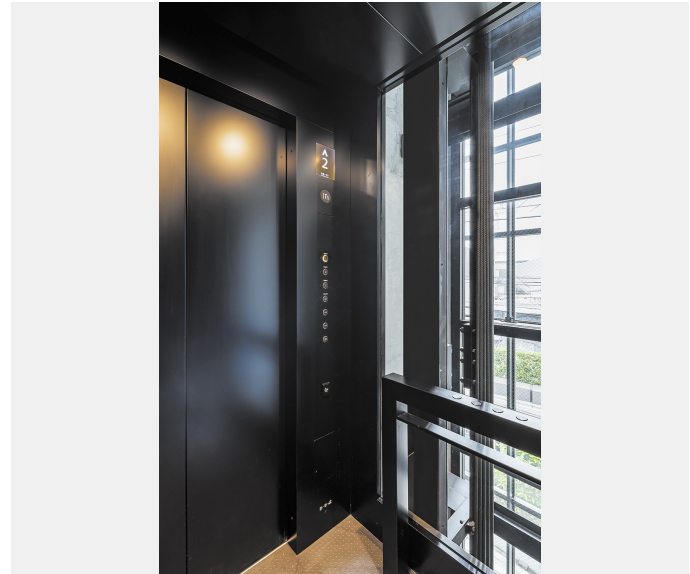

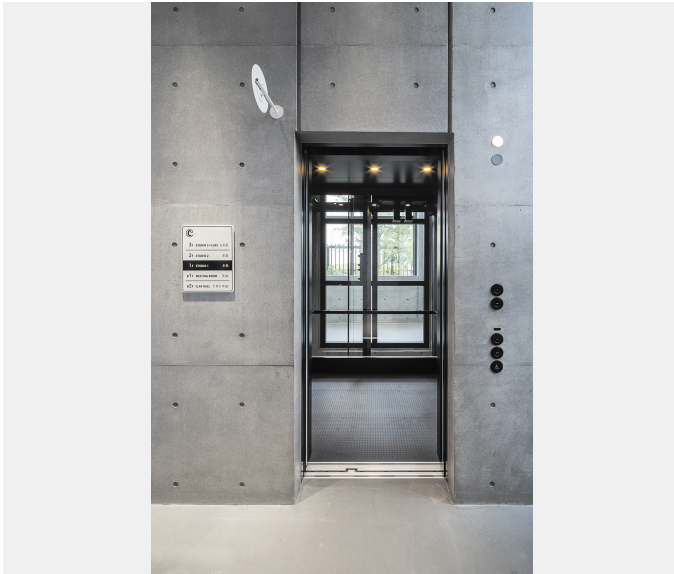

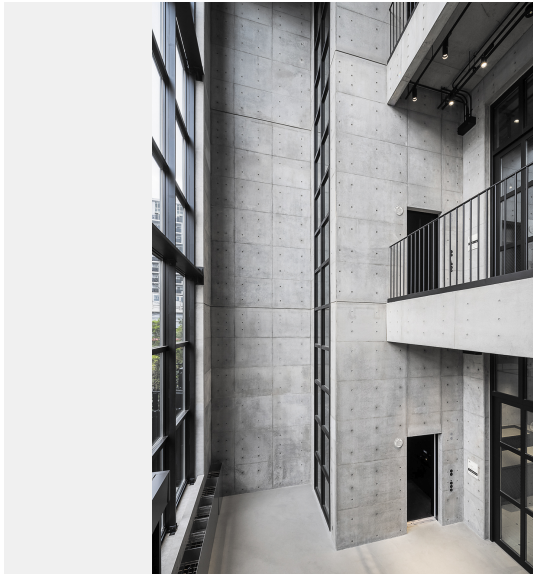

"FUJIFILM Creative Village" is Fujifilm Group's Design and IT development base. This facility consists of design development base "CLAY" and IT development base "ITs". The aim is to create innovation through collaboration between Designers and IT engineers.

Two (2) Fujitec elevators are delivered. The Observatory type elevators, inside the concrete shaft, are designed with wheelchair operation panels that maximize the glass surface. The wheelchair control panel, which also functions as a handrail, is custom designed to meet the barrier-free specifications. The ceiling soft downlights create a calm and relaxing space. The car door and panel are matte black finished, giving an elegant and refined impression.

Owner	FUJIFILM Corporation
Architect	TOHATA ARCHITECTS & ENGINEERS
Contractor	KAJIMA CORPORATION
