Location

Shiga Prefecture

Completion

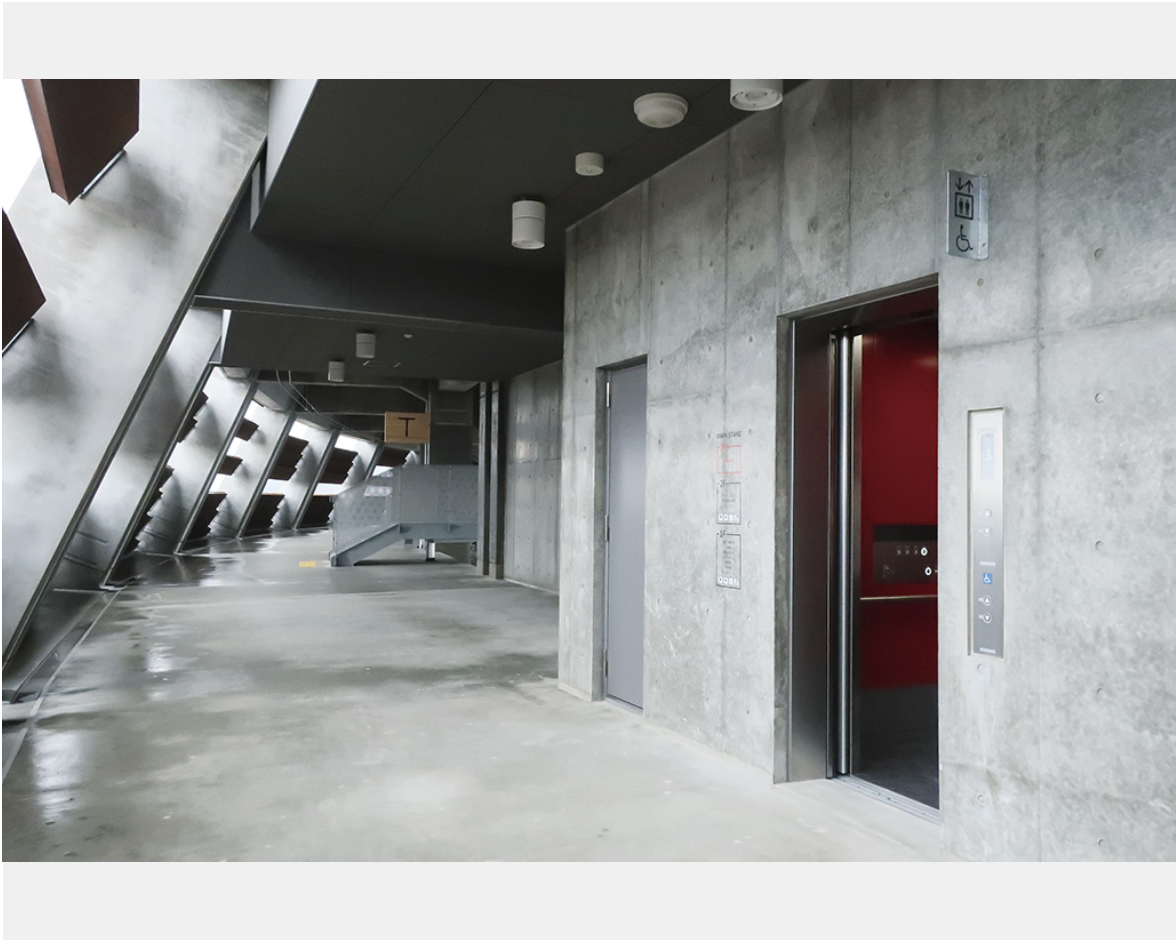

2023

Total units

Elevator 7

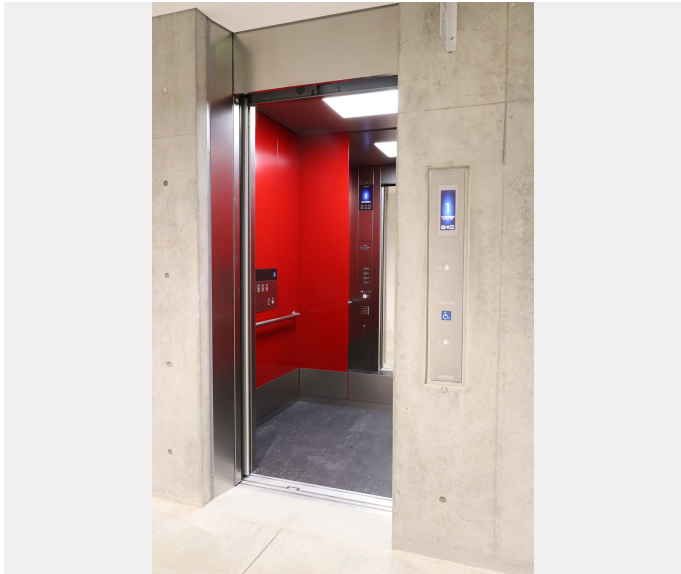

"Heiwado HATO Stadium" is an athletic stadium located inside the Hikone Sports Park in Hikone City, Shiga Prefecture.  
The stadium was designed based on five concepts: "Compact," "Consideration of historical landscape," "Circulation around," "Considering environmental impact," and "safe and secure stadium."

Fujitec installed four (4) elevators. Providing transportation to diverse people of all ages, genders, and handicaps to interact with each other through sports.  
At the "Johoku Hyakken Bridge," which is a pedestrian bridge providing access to the stadium, we have installed three (3) observatory elevators that could carry bicycles considering the safety and landscape scenery.
