

“NISSIN FOODS HOLDINGS Tokyo Head Office” is a fourteen (14) story office building with two (2) basement floors located in Shinjuku, Tokyo. The five (5) elevators that have been in operation since the building was completed in 1988 have been fully modernized to improve safety and comfort.

The inside of the elevator has wood-grained walls and handrails, and the ceiling is covered entirely with glass cloth to create a brighter and warmer atmosphere. An 18.5-inch digital signage has been installed on the transom above the door to show new product information and commercials, making the elevator a place where people can also gather information. The elevators are equipped with “Air Tap” (touchless buttons) to support comfortable daily transportation.
