

Building name

Madero Office

Location

Buenos Aires, Argentina

Completion

2011

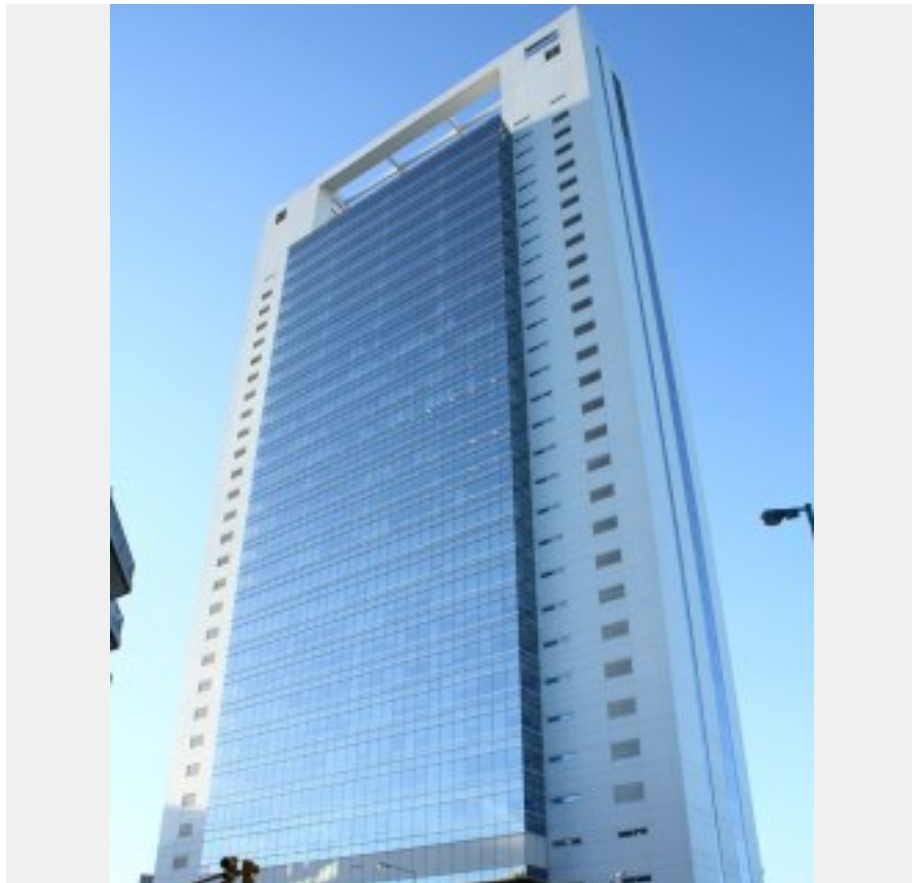

Total units

Elevator 20

Madero Office is a high-class office building located in Buenos Aires, the capital and the largest city of Argentina.

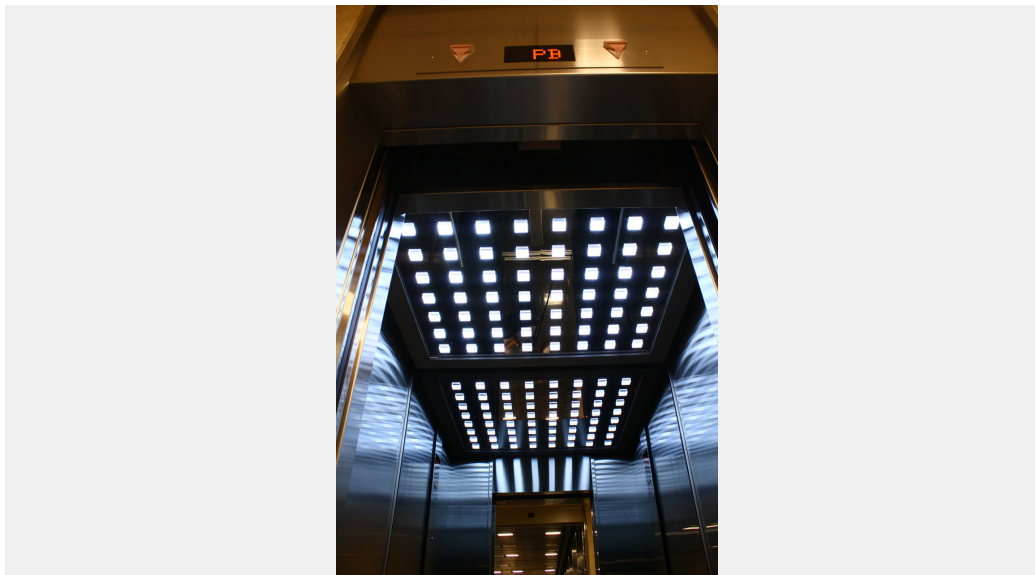

The building was designed by the prominent architect in Argentina, Arq. Mario Robert Alvarez y Asociados, and the unique structure stands out impressively. The building has 30 floors above ground and four below. In this building, Fujitec installed 20 elevators with a simple and clean image best suited for this high-class office building.

The elevators are equipped with in-car information display units that provide passengers with a wide array of information which matches this state-of-the-art building.
