Pyong Chon Sung Shim Hospital is a modern medical facility built in Pyong Chon District, a suburb of Seoul, Korea. The hospital is owned by Hallym University Medical Center, Korea's leading general hospital corporation. The building has 13 floors above ground and two below ground. The hospital is fully equipped with state-of-the-art medical equipment. Fujitec installations: 10 elevators and 4 escalators, as well as an ELVIC elevator monitoring system include in operation. Three of the elevators are equipped with an AUVIS elevator multi-informational AV system that offers floor information with a variety of pictures and music enjoyed by its users.
