

Building name	Location	Completion	Total units
Jamieson Place	Calgary, Canada	2009	Elevator 17 Escalator 2

Jamieson Place is an office building located in the center of Calgary, the largest city in Alberta Province, Canada. This office building is composed of 37 floors above ground and five underground, and having the latest systems and facilities for office building management. Here, Fujitec has installed 17 elevator and two escalator units. The sophisticatedly designed elevators are equipped with touch-sensitive operating panels and fixtures. Elevator halls and car interiors are extensively finished with polished natural stone panels and high-grade stainless steel, creating a sophisticated mood.
