Total units

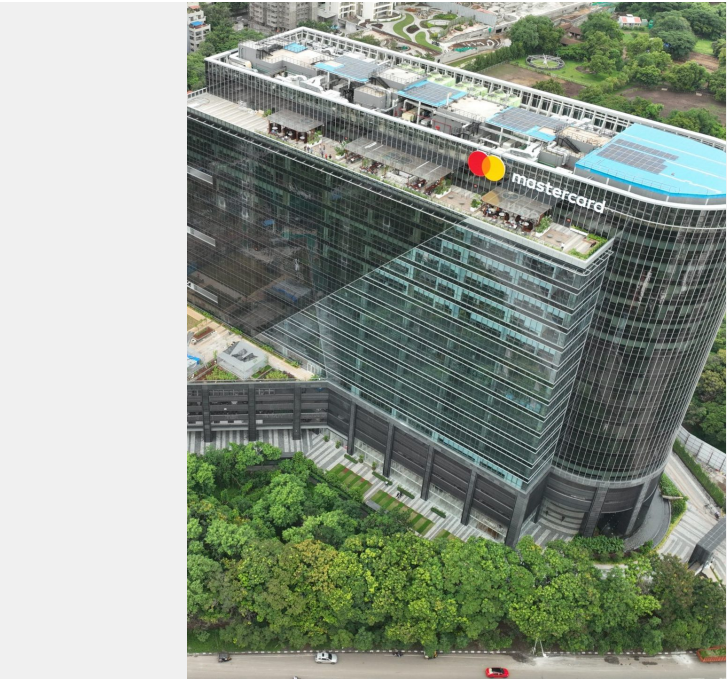

Elevator 24

Bluegrass Business Park is an IT park that satisfies the requirements of the international standard. It is located in Pune City, the capital of the state of Maharashtra in Western India.

The premises cover an approximate 24,000-m2 area where there are two office buildings, one has thirteen (13) floors; the other has fourteen (14) floors.

In those buildings, Fujitec installed a total of twenty-four (24) elevators including eighteen (18) high-speed elevators.

To ensure that office workers can reach their destination floors quickly and efficiently, the elevators are equipped with Fujitec's destination floor guidance system, EZ-SHUTTLE. Workers can smoothly travel to their destination floors by simply registering their floors on the registration units installed on the landing floors without having to operate any controls inside the elevators.
