

Building name

Nagasaki stadium city

Location

Nagasaki Prefecture

Completion

2024

Total units

Elevator 20
Escalator 6

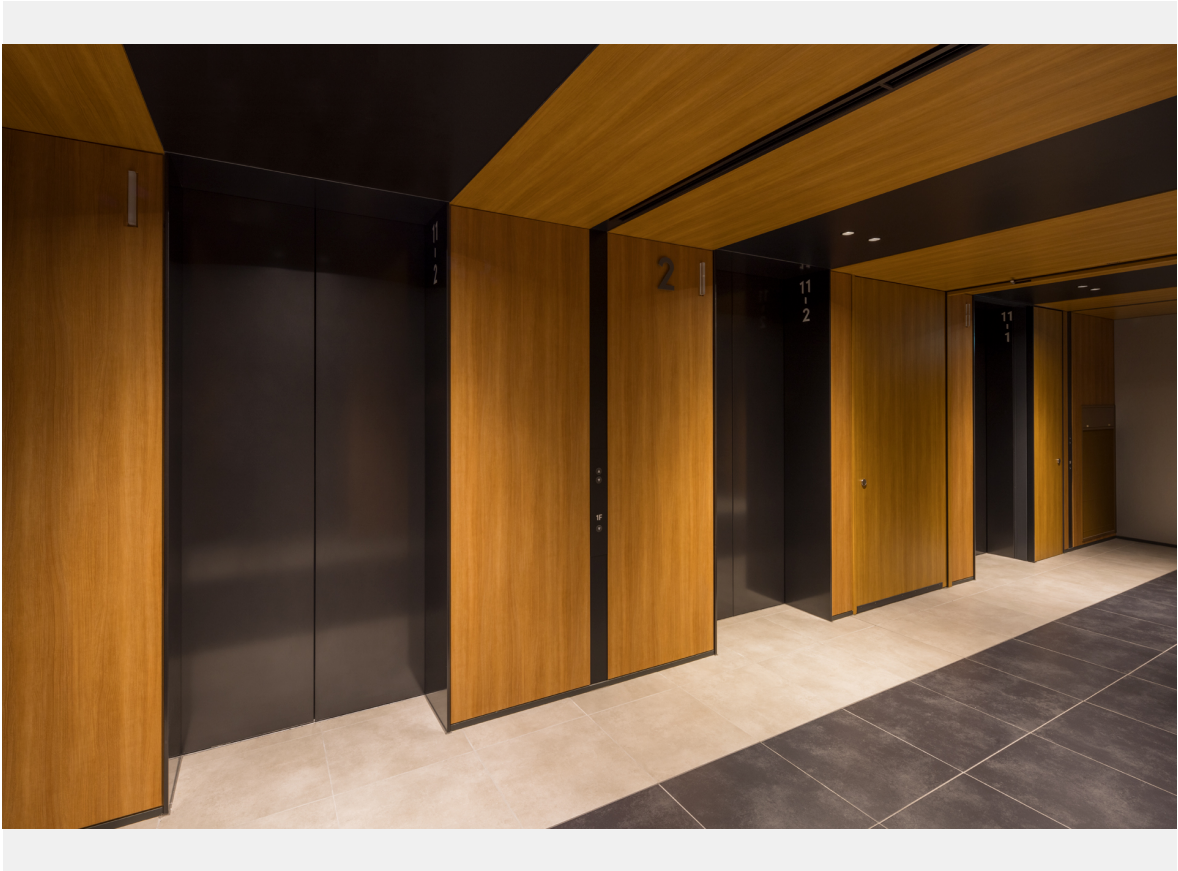

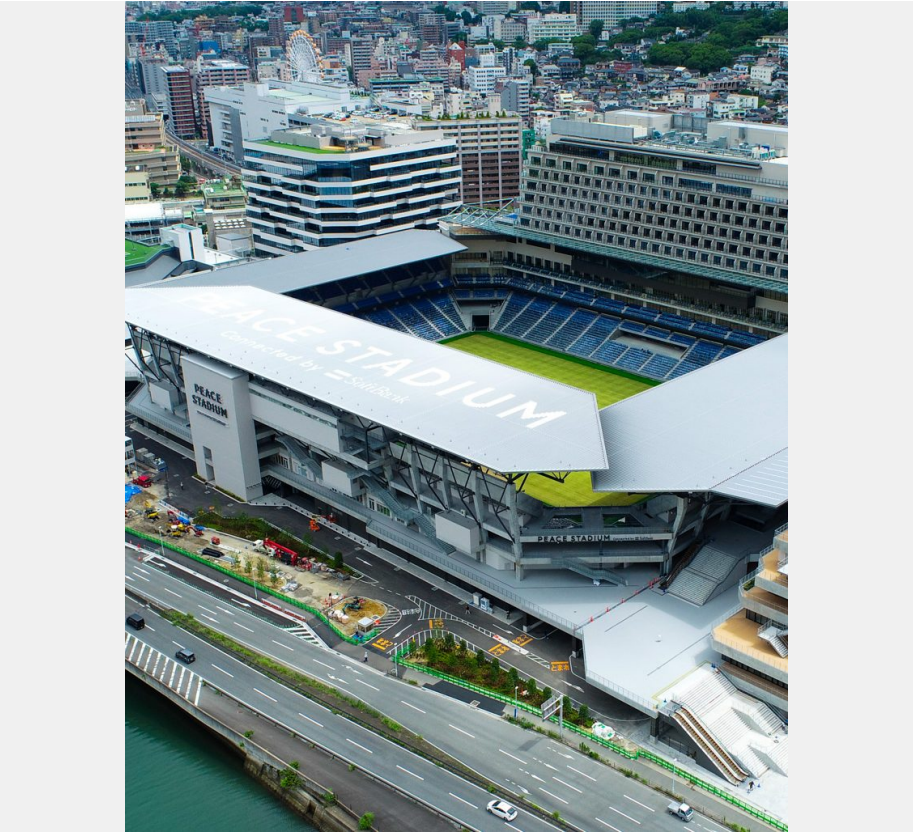

Nagasaki Stadium City is a large-scale, multi-purpose complex that houses the home stadium of the V-Varen Nagasaki professional soccer club and the home arena of the Nagasaki Velca professional basketball club. The complex also features a first hotel with views of the soccer stadium, a commercial area for people to dine a variety of cuisines, to learn useful study courses and to enjoy other entertainment options, and one of Nagasaki Prefecture's largest office buildings to attract domestic and overseas enterprises.

Fujitec installed three (3) elevators in the soccer club's home stadium, Peace Stadium, which has approximately 20,000 seats to provide comfort for stadium visitors and support their vertical movement in the stadium space.

Fujitec also installed eight (8) elevators and six (6) escalators in the NORTH office building. The interior design of the elevators is highly harmonized with the decorative design of their landing floors. It is finished with a simple but very heartwarming design. Meanwhile, the escalators are equipped with skirt guard lights that illuminate users' feet to increase their riding safety and create a high-quality atmosphere in the public areas of the office building.

In addition, Fujitec installed six (6) elevators in the SOUTH commercial building. The elevator interiors are designed with the concept of vividness and warmth and equipped with AirTap touchless registration buttons. This interior design supports the users' comfort and increases the level of their convenience.

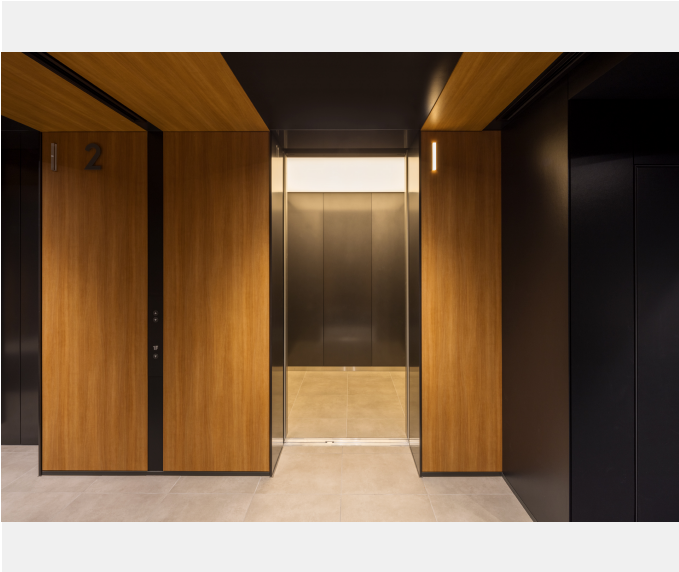

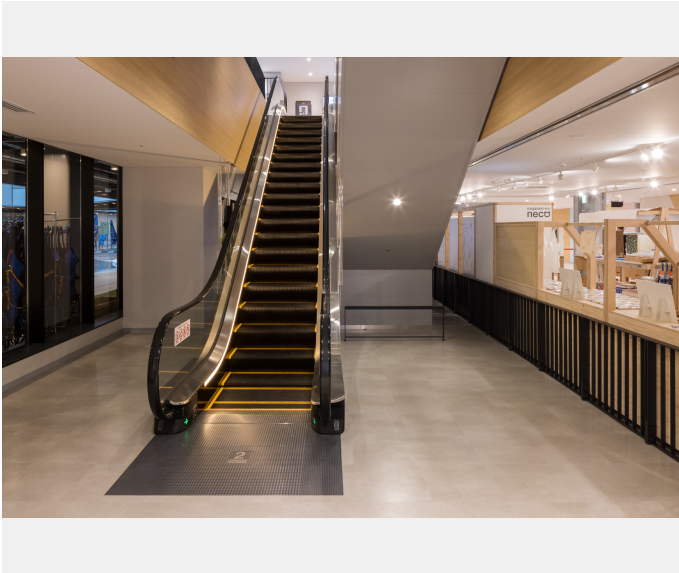

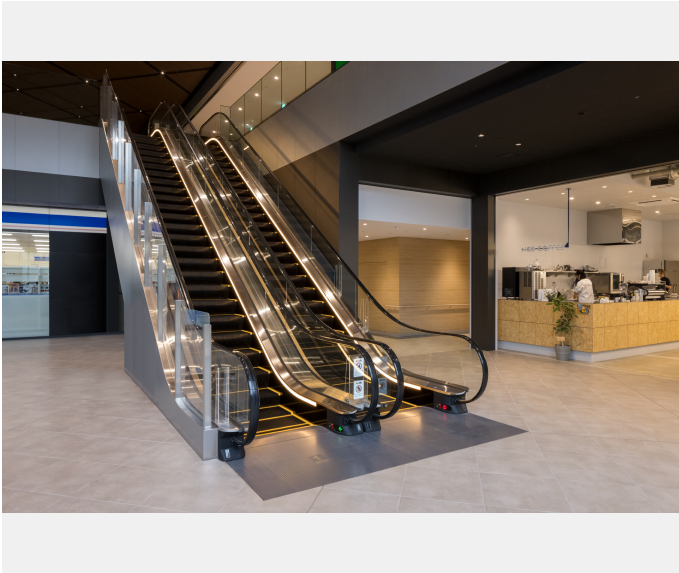

Besides the above functional facilities, there is also a very relaxing hotel called the Stadium City Hotel, which provides hotel guests with a natural hot spring wellled from 1500 meters underground. Fujitec installed three (3) elevators in this hotel.
