Standing in the close vicinity of the port of Takamatsu, Anabuki Arena Kagawa (Kagawa Prefectural Arena) is one of the largest arenas in the Chugoku and Shikoku regions. In addition to the main arena that can accommodate a maximum of ten thousand (10,000) people, it also has a sub-arena and martial arts facilities. These venues can be used for a variety of occasions, such as sporting events and concerts. In this facility, Fujitec installed six (6) elevators that are provided with accessible devices for wheelchair users and AirTap touchless buttons.

The facility overlooking the serene sea of Setouchi has become a hub of regional revitalization, bringing new vigor to the local communities.
