ZERO CARBON BASEBALL PARK

Location

Hyogo Prefecture

Completion

2025

Total units

Elevator

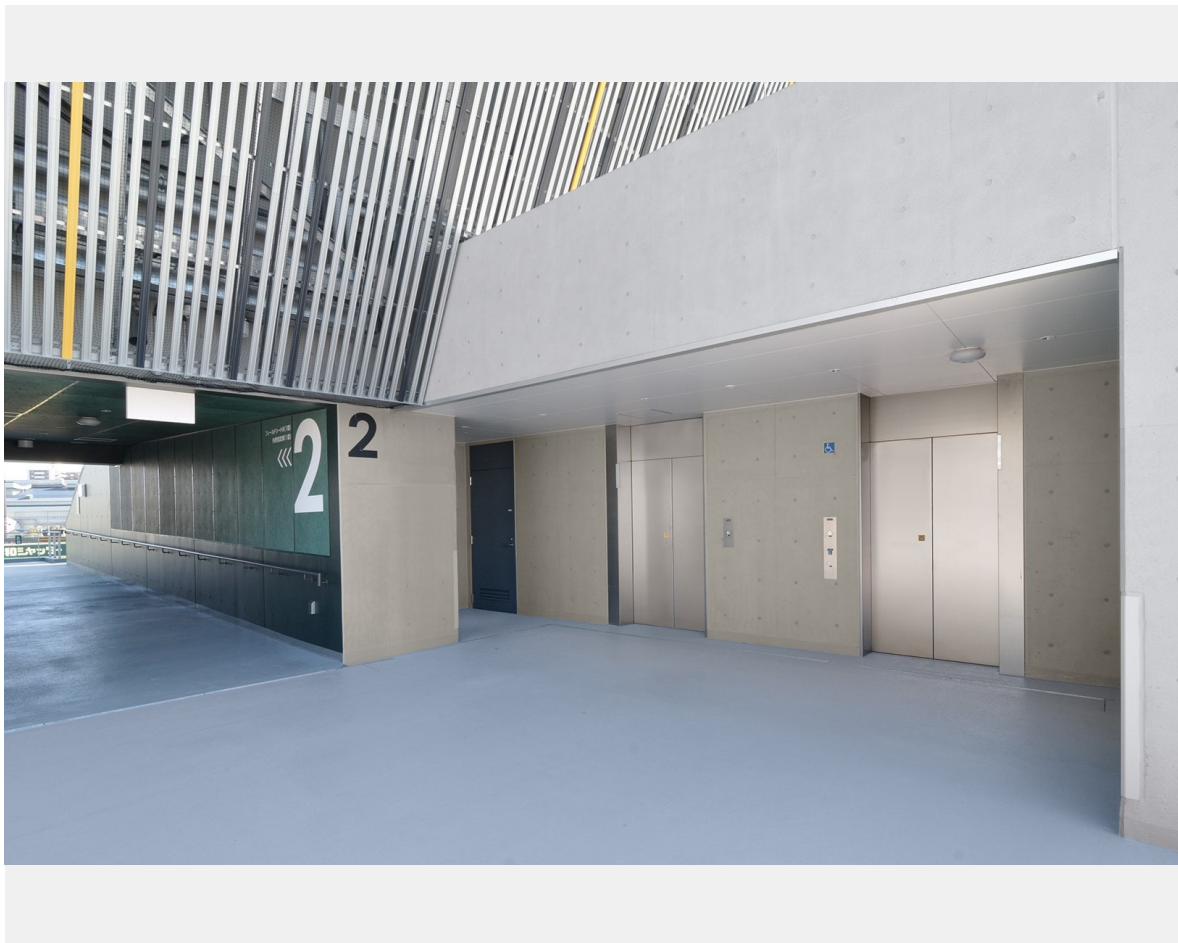

4

Located at Amagasaki city in Hyogo prefecture, Zero Carbon Baseball Park is the home base of Hanshin Tigers farm. This Park is organized very well so that there are a stadium, a plays' practice field, and a players' dormitory & clubhouse as well as a baseball ground and a park where local people can also use.

The operation of this park addresses to reduce the emission of the CO2 involved with the operation of the facilities practically down to zero with the purpose of contributing to creating a decarbonized society.

By inducing a solar power generator, adopting the roof and wall panels with thermal protective materials, and taking other decarbonizing measures, the Park enhances energy saving across the whole facilities and aims at realizing a zero-carbon environment.

In this Park, Fujitec has installed four (4) elevators. Being matched the features of the Park, Fujitec elevators also have environment-conscious specifications. When no passengers use the elevator during a certain period of time, the lighting in the elevator automatically turns off. The vibration suppressing devices can be maintained without filling any inner oil because of their involvement of no oil. Easily recycled eco-material electrical wires and other ecological parts are used for the Fujitec elevators.

Owner	Hanshin Electric Railway Co., Ltd.
Architect	Sekkei Co., Ltd.
