The Fukuoka Budokan has evolved as a new symbol for the region, blending the spirit of martial arts with Fukuoka's culture. The veranda-like space created by the large eaves and colonnade softly connects the exterior and interior, evoking a sense of Japanese hospitality. The exterior incorporates Hakata-ori textile motifs, expressing both strength and elegance. The warmth of wooden louvers and the lantern-like glow at night create a dignified presence and a sense of calm emotion.

Fujitec supplied three (3) elevators for this facility. Their black-color-based simple and chic design supports comfortable, safe, and secure movement without detracting from the Japanese architectural beauty.
