Elevator 38

EASTPOLE TOWER is a complex commercial facility located in Gwangjin-gu in the eastern part of Seoul, South Korea. The building's cutting-edge design integrates a five-star hotel, office spaces, luxury residences, and cultural facilities, establishing it as a city landmark. Fujitec has supplied thirty-eight (38) elevators to this facility. Twelve (12) elevators with a speed of two hundred forty (240) meters per minute installed in the office building feature the "EZ-SHUTTLE" destination registration system. This system automatically assigns cars corresponding to passengers' destination floors, ensuring efficient operation. The hotel elevators feature a simple yet luxurious interior design that harmonizes with the lobbies.
