

Building name

The Chinese Medicine Hospital of Hong Kong

Location

Tseung Kwan O, Hong Kong

Completion

2025

Total units

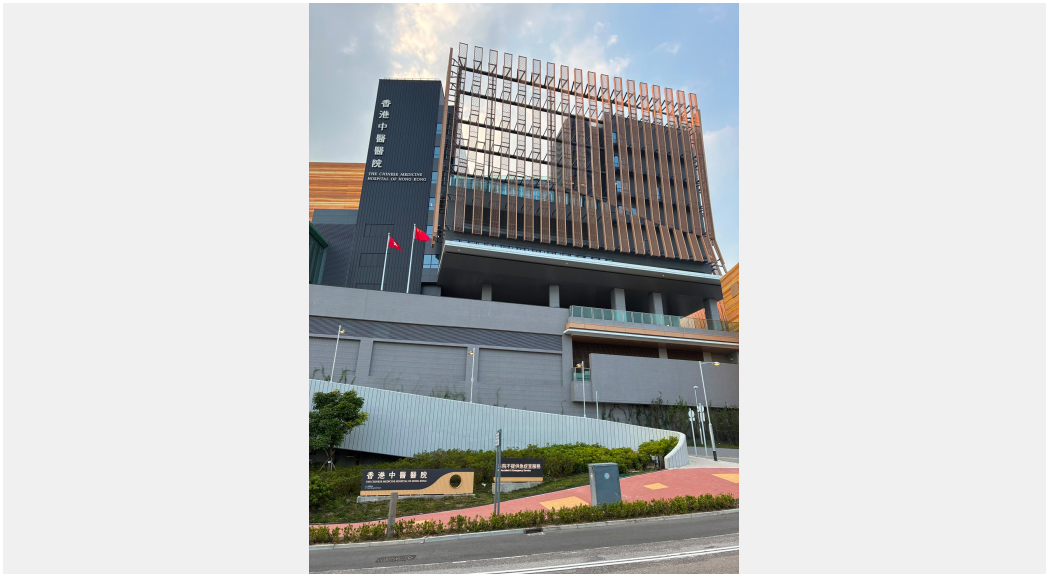

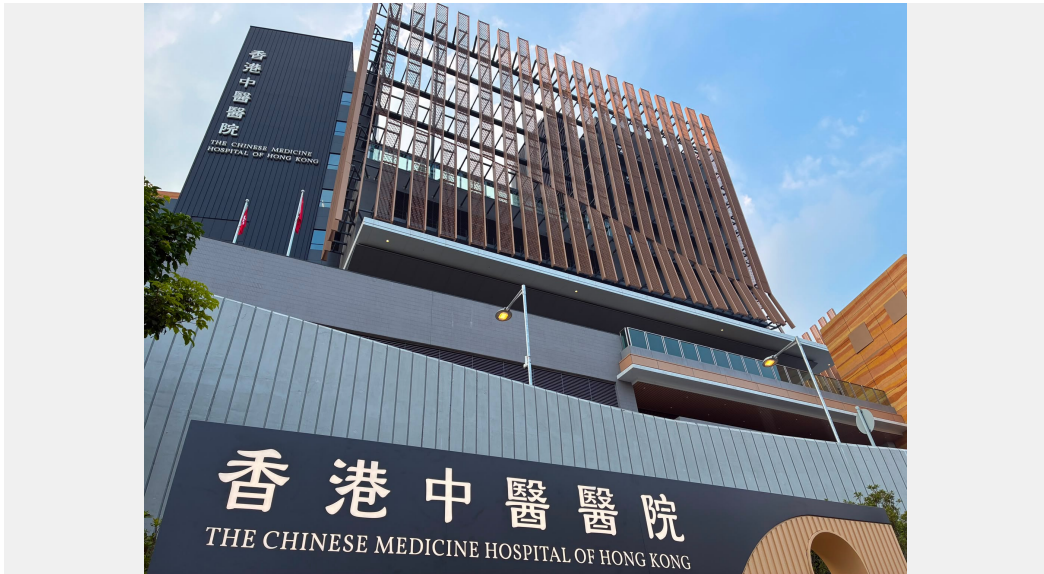

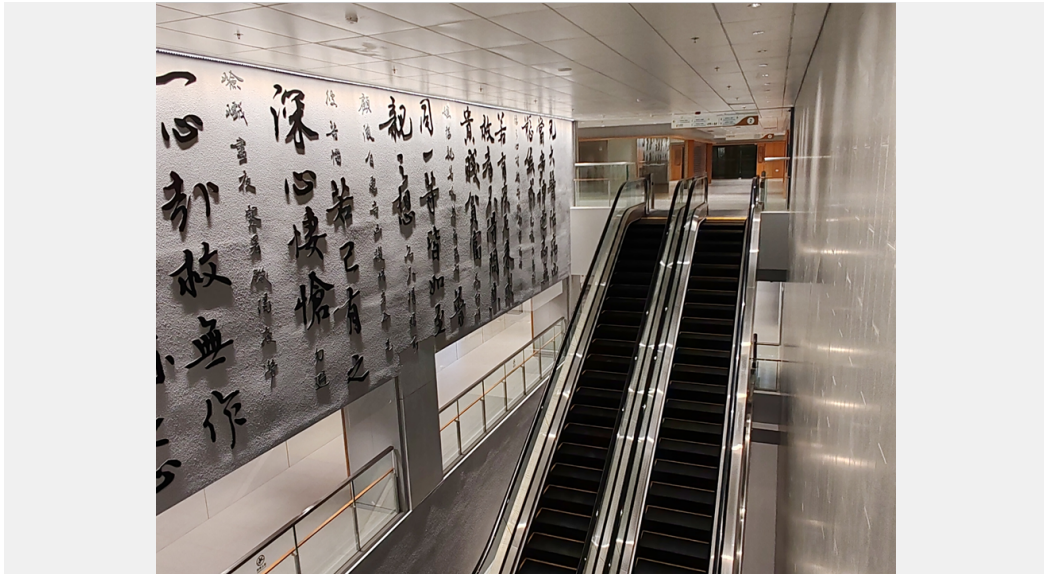

Elevator 44
Escalator 8

The Chinese Medicine Hospital of Hong Kong, located in Tseung Kwan O, Hong Kong, is the city's first hospital specializing in traditional Chinese medicine. Developed as a comprehensive traditional Chinese medicine campus that integrates medical care, research, and education, it features hospital facilities offering outpatient services, rehabilitation, and inpatient beds, as well as the Government Chinese Medicines Testing Institute (GCMTI). It serves as a hub for promoting the integration of traditional Chinese medicine and modern medicine and contributing to the health and well-being of the local community. Fujitec has supplied forty-four (44) elevators and eight (8) escalators to this facility. The elevators in the main building are equipped with the "EZ-SHUTTLE" destination floor registration system, which efficiently guides passengers to their desired floors, thereby improving overall circulation efficiency within the facility. Additionally, elevator cars feature a wood-grain finish, creating a warm and calm atmosphere befitting a hospital.
