

Building name

Hyogo Prefectural Nishinomiya General Medical Center

Location

Nishinomiya, Hyogo

Completion

2026

Total units

Elevator 17
Escalator 3

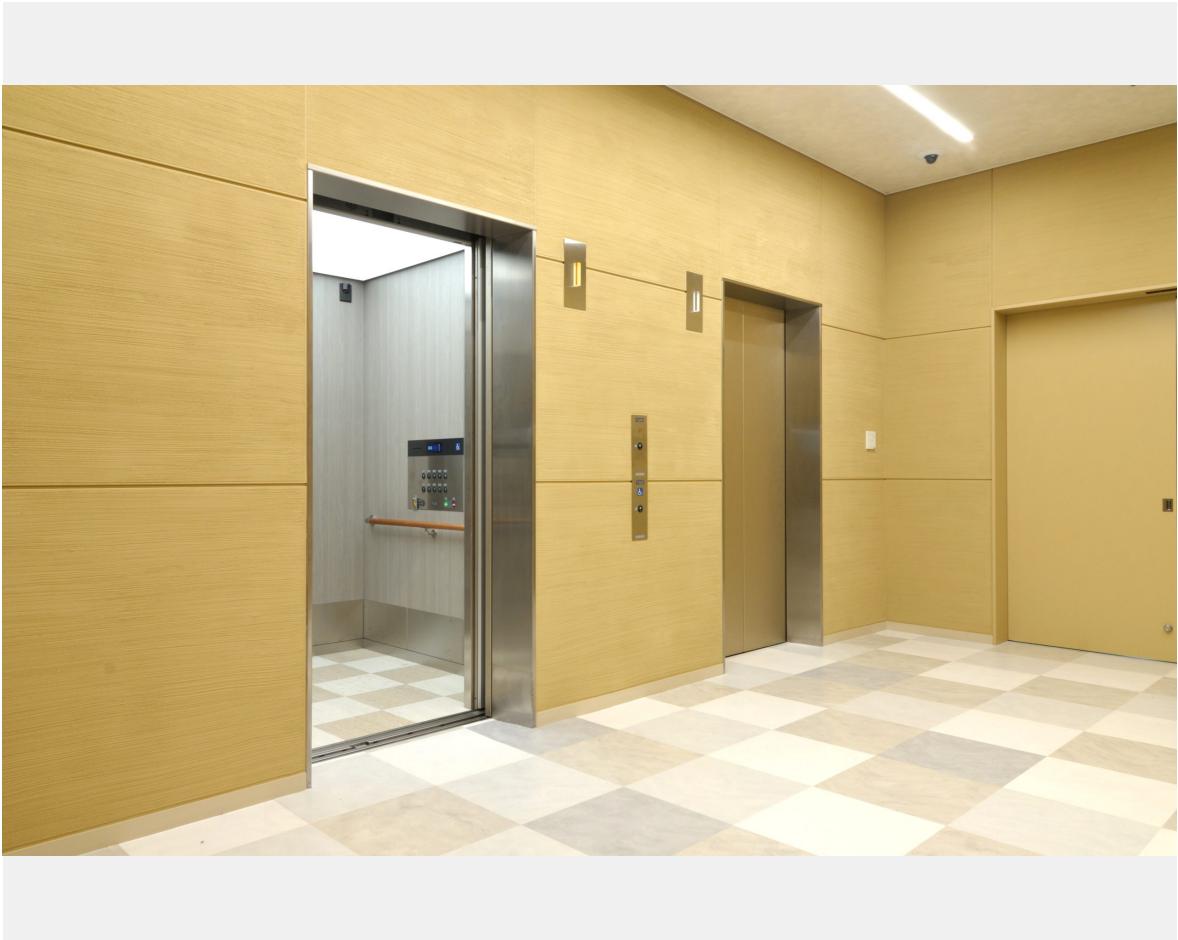

Hyogo Prefectural Nishinomiya General Medical Center is a comprehensive medical facility established in Nishinomiya City, Hyogo Prefecture, through the merger and reorganization of Hyogo Prefectural Nishinomiya Hospital and Nishinomiya Municipal Central Hospital.

Developed as a core regional hospital providing advanced acute-care and emergency medical services, it is equipped with state-of-the-art medical capabilities and a comprehensive clinical care system.

Fujitec has installed seventeen (17) elevators and three (3) escalators at this facility.

The elevators feature a wholly illuminated ceiling and wood-grain finishes, creating a clean and calming atmosphere befitting a hospital. Additionally, they are equipped with robot integration functionality that enables autonomous movement in coordination with service robots, supporting efficient transport within the hospital.

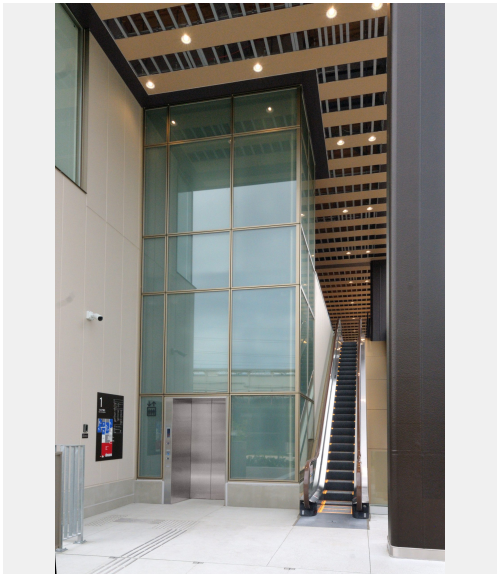

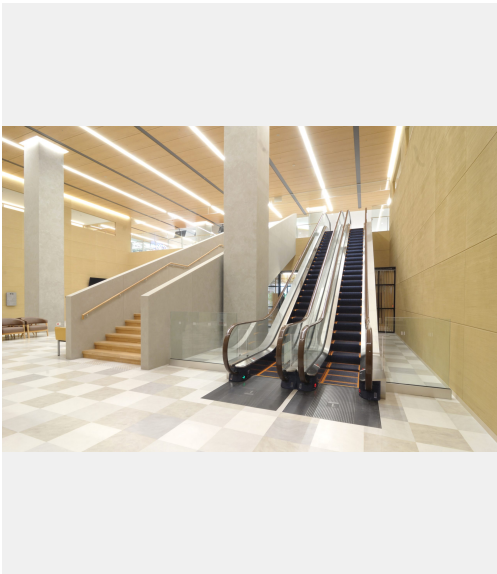

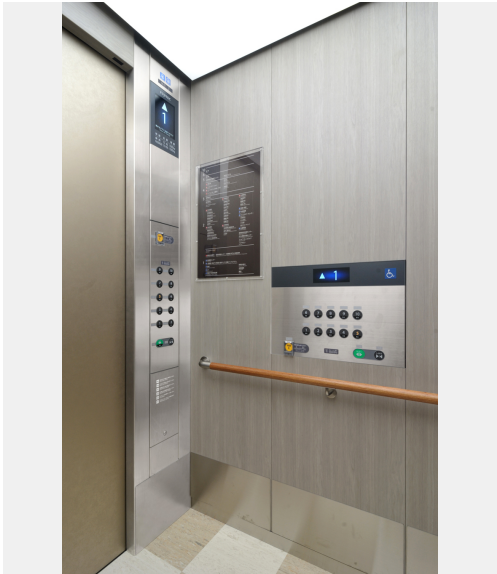

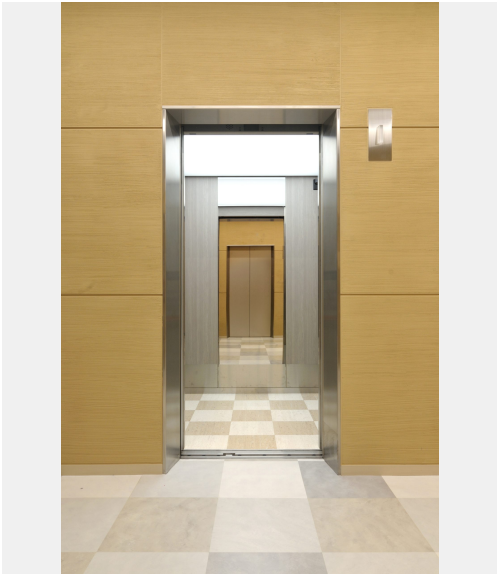

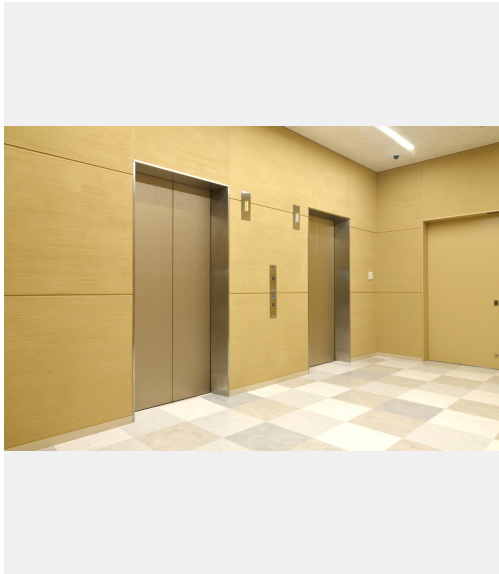

The escalators are equipped with “EverFresh,” a device that continuously disinfects the handrails during operation, contributing to an environment where users can feel safe and reassured.

Owner	Hyogo Prefecture
